Our Factory

Located in Juancheng, Shandong, China, our factory begins at a small workshop in 2010 with dozens of skilled workers who are famous expert in the hair industry, especially in hair processing and raw hair collect. It develops and grows as the leader of hair industry in 15+ years, and now we have about 200+ skilled workers, spacious factory (about 100k sq. ft), advanced facilities, and good reputation in the hair industry.

Our factory stands out in dozens of factories in this area because we stay focus on product and service: constantly updated technology, strict product QC, improving production processes, and the most important is, end-user experience.

Ethical Hair Source

We regard ethical hair source as a kind of social responsibility, as this may be related to the honesty of an enterprise, and may be related to donator's benefits. We selected several distributors which have gained a great reputation for ethical sourcing and hair quality. In more than 10 years cooperation, all hair for us is donated or sold, with fair pay for donator.

Only Remy Hair

Our Hair extension only uses remy hair. Remy hair is a high-quality hair that lasts up to a year and blends very well with your own hair, almost no tangling, and matting when you wear it, all the cuticles are intact, running in the same direction (at time of collection).
