## Cosmetic Swabs Ear Cleaning Sticks

Humans are said to use 1.3 billion cotton swabs every day, and who knows how long until single-use Q-tips will be banned as much as if we were starting to see what will happen to plastic bags and plastic straws in certain states and cities.

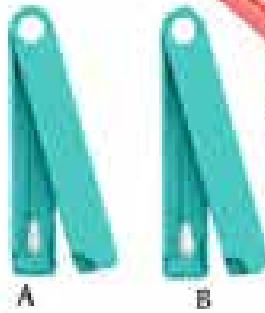

It is made of super soft and flexible loops at the end of each swab, and is great for removing dirt, grease, makeup, and more. They feature a soft flat tip made of medical cotton. It is delicate enough to be appropriate for more sensitive body parts, and so accurate that it will become an essential make-up.

It also has the tendency to be well cleaned, offering for long-term use.

### Build Your Own Value Set

It allows you create a set just right for you by mixing and matching sizes and sets. The Value Set allows you to purchase one Full Set of any size along with one Add On of any size for less - giving you 4 rollers and a universal handle.

It is the detachable round brush styling tool that allows you to achieve a salon quality blow-out at home. It's easy to use as a conventional round brush and produces results consistent with today's hottest hairstyle trends - body, volume and loose flowing curls. Unlike other tools that require you to dry before styling, it allows you to dry and style all in one step. With it, you can achieve the look you need by the time your hair is dry and cool.

With a detachable handle that turns brush heads into rollers, it allows each section of hair to cool and set while you continue styling. Heat is what alters the molecular bonds in your hair and permits a temporary change in shape (straight to curled), but it is the cooling of the hair that allows the new shape (the curl) to be retained.

After drying a section of hair with your blow dryer, simply detach the brush barrel and allow your hair to cool while you attach the handle to the next brush barrel and move on to the next section of hair.
