致辞

天道酬勤，厚德载物，
斯普鑫追求的不是利润的最大化，
而是价值创造能力的最大化

CONCEPT

Hard work pays off and great virtues can carry all things.
Sipuxin is not seeking the maximized profits, but the
maximized ability to create value.

斯普鑫董事长
SIPUXIN President
TONY ZHAO

寒暑往来，岁月更迭，十几年的风雨兼程，斯普鑫在众多新老朋友的呵护下，在斯普鑫人的精心培育和浇灌下，从一颗充满生机和活力的幼苗长成今天沉稳浓郁的参天大树。朝花夕拾，如今斯普鑫走出了一条创新之路、发展之路、领先之路，在国内外市场赢得了良好口碑和一致推崇。

竞争日益激烈和经济全球化的时代，我们必须讲究效率及增值创新能力。为了实现可持续发展，企业必须同时具备多项成功的要素，包括全景思维、务实创新、良好的管理、完善而灵活的组织和制度、出色可靠和富有经验的管理阶层、勤奋负责和忠诚服务的员工、科学及完备的数据库。斯普鑫人奉行：专业、专注、专心，为日化、食品、制药领域提供世界一流装备。

以倡导绿色科技为己任，着眼于产品制造的精益求精，着眼于未来发展的广深兼具；以创造为使命，恪守朴素本真的制造原理，开拓颠覆传统的制造新概念。服务未来，以坚实沉稳的步伐，走斯普鑫特有的创新之路。实现企业、社会、自然的和谐发展，与社会各界共同创造和分享美好明天！

斯普鑫

德载物

Day by day and year in year out, after going through more than ten years of hardships and difficulties, Sipuxin has grown from a seedling full of vigor and vitality into today's luxuriant towering tree. Harvesting what we've sown, now Sipuxin has opened up a road of innovation, development and leadership, winning good reputation and wide recognition in domestic and international markets.

In the era of increasingly sharp competition and economic globalization, we must reinforce efficiency and develop the capacity of incremental innovation. To realize sustainable development, our enterprise must have many success factors, including panoramic thoughts, pragmatism and innovation, good management, perfect and flexible organization and system, excellent, reliable and experienced management, diligent, responsible and devoted employees, as well as scientific and complete database. Sipuxin personnel pursue the principle of providing world's first class equipment for daily chemicals, food and pharmaceutical industry with specialization, devotion and concentration.

We undertake the responsibility of advocating green technology, focus on elaborate product manufacturing, seek profound future development, keep to the mission of creation, adhere to the simple and unadorned manufacturing principle, develop new manufacturing concepts that overthrow the tradition and take the unique road of innovation with steady steps, so as to realize harmonious development of the enterprise, society and nature, and create and share a brilliant future together with people from all circles.

SIPUXIN
LIGHT INDUSTRY MACHINERY

简介

以客户成功引领技术革新，持续为客户创造更大价值，
化妆品设备制造行业的技术创新者和领航者

PROFILE

Customer success lead technical innovation, continue to create greater value for customers, Cosmetics equipment manufacturing industry technical innovator and leader

广州斯普鑫轻工机械设备有限公司是以扬州斯普鑫轻工机械装备厂为坚实基础，专业从事化妆品、制药、食品、日化等行业的成套设备制造商，为客户提供多种特殊应用领域的解决方案，满足客户多样化需求。“高度专业化、适度多元化”企业管理模式的成功，使斯普鑫已成为拥有行业领导地位的品牌企业。斯普鑫致力于为化妆品、制药、食品、日化等行业的企业做强、做大提供坚实后盾，服务于太阳神集团、广州悦祥、广州艾莉琦、广州慈家、茂名清瑞厂、惠州炬研、深圳活力科技、贵州宏宇药业、沧州三庆、北京万惠、北京同仁堂、香港远洋科技、韩国美芝琳、韩国熊熊、新加坡Magic Touch等国内外著名企业。

斯普鑫公司致力于为客户带来专业、创新、完美的产品体验度。主要产品有真空均质乳化机系列，高剪切液洗搅拌机系列，RO反渗透水处理系列，储罐，各式膏霜、液体、粉体全自动及半自动灌装线，各类型型压盖机、旋盖机、贴标机、喷码机及其他彩妆、香水整套生产线，实验室设备，流水线工作台等。

斯普鑫公司本着“客户为本”的经营理念，协助客户进行现场厂房设计、设备选型，为客户提供从产品设计研发、生产制造、工程安装、技术顾问到售后维修的“一站式贴心服务”。不断加强核心技术的研发和创新，严格的质量监控，精密的检测流程，确保每一条生产线都超越客户的期望。“斯普鑫就在您身边，竭诚服务到永远”，赢得了国内外广大客户的信任与支持。

广州斯普鑫成立以来所取得的辉煌成绩，使每一个斯普鑫人坚信：天道酬勤，厚德载物。在圆满完成第一个五年规划的任务之后，斯普鑫将继续秉承一贯的专业经营理念，弘扬诚信、敬业、发展、领先、和谐的企业精神，在下一个五年规划中，持续为客户创造更大价值。从产品的设计、制造到品质，无一不精益求精，采回请客户朋友的关心和爱护，在跻身世界一流的化妆品、制药、食品、日化成套设备生产供应商的宏伟蓝图上步步成真。臻善臻美，始终如一。

Guangzhou Sipuxin Light Industry Machinery Co., Ltd. is a professional manufacturer of whole-set equipment for such industries as cosmetics, pharmaceutical, food and daily chemical, etc., with solid backing from Yangzhou Sipuxin Light Industry Machinery equipment Factory. Sipuxin provides clients with various solutions for special applications and meeting diversified demands of clients. The successful enterprise management mode of "high specialization and moderate diversification" has made Sipuxin a famous brand enterprise leading the industry. Sipuxin is devoted to providing solid support for enterprises in such industries as cosmetics, medicine, food and daily chemicals to become more powerful and bigger. We provide services for many famous domestic and international enterprises such as Apollo Group, Guangzhou UTree, Guangzhou AIQ, Guangzhou urara, Maoming Sterilizing Factory, Huizhou Juqiang, Shenzhen Bo-Genetec, Guizhou Hongyu Pharmaceutical Factory, Cangzhou Sanqing, Peking WINCHEM, Peking Tongtongtong, Hong Kong Yuanyang Technology, Korea Meizhili, Korea Dr Hancy, Singapore Magic Touch, etc.

Sipuxin is devoted to bringing professional, innovative and perfect product experience to clients. The main products include vacuum homogenizing emulsifier, high-shear liquid detergent mixer, reverse osmosis water treatment, storage tank, various cream, liquid and powder automatic and semi-automatic filling production line, various bottle capping machine, labeling machine, inkjet printer and other cosmetic and perfume whole-set production line, laboratory equipment, conveyor, etc.

Holding the business philosophy of "customer foremost", Sipuxin supports clients to carry out factory design and model selection according to existing sites and provides clients with "one-stop considerate services" including product design, research and development, production, engineering installation, technical consultation and after-sales maintenance. We are continuously intensifying the research, development and innovation of core technology and ensuring that every production line exceeds customer expectation with strict quality monitoring and precise inspection procedures. "Sipuxin is always with you. Sincere service lasts forever." We have won trust and support from clients all over the world.

The remarkable achievements that Sipuxin has accomplished since its establishment make all Sipuxin personnel believe that: Hard work pays off and great virtues promotes growth. After successfully completing the tasks for the first five-year plan, Sipuxin will continue to create more value for our clients in the next five-year plan by always keeping to the professional business philosophy and carrying forward the enterprise spirit of sincerity, devotion, development, leading and harmony. We will repay care and concern of our clients with exquisite craftsmanship and continual improvement in product design, manufacturing and quality and strive for the goal of becoming a world's first-class manufacturer and supplier of whole-set equipment for cosmetics, pharmacy, food and daily chemical. Seeking perfection and keeping consistent is our insistence.

团队

人才是企业的根本
管理是企业的灵魂

TEAM

Management is the soul of the
Enterprise and talents are the bases of the enterprise

人才是企业应对市场激烈竞争, 实现企业战略目标和可持续发展的首要资源。斯普鑫以其独特的企业文化, 以情感留人, 真情动人, 情思感人, 才能聚人, 为人才创造良好的成长环境, 引导人才逐步实现自己的职业生涯规划。

科学管理、团队经营, 是斯普鑫人才管理的一贯传统; 积极进取、顺势而变, 使斯普鑫焕发勃勃生机。信任鼓励、职务激励、知识鼓励、情感鼓励、目标激励和荣誉激励, 塑造新时代的斯普鑫人。斯普鑫努力探索“高度专业化、适度多元化”的企业经营管理模式, 致力于产业领导地位的建立, 确保斯普鑫基业长青。

Talents are the prime resources for our enterprise to cope with sharp market competition and realize enterprise strategy goals and sustainable development. With unique enterprise culture, Sipuxin retains talents with emotion, touches them with sincerity and gathers them with ability, creating a good growth environment for talents and guiding them to gradually realize their career planning.

Scientific management and team operation is the consistent tradition of Sipuxin. Being active and enterprising and changing with the trend bring vigor and vitality to Sipuxin. We are creating Sipuxin personnel of the new era through trust encouragement, position encouragement, knowledge encouragement, emotion encouragement, objective encouragement and honor encouragement. Sipuxin strives to explore the enterprise management mode featured by high specialization and moderate diversification, devotes itself to establishing a leading position in the industry and ensures permanent enterprise business.

因为专注, 所以专业 Because the focus, so professional

技术

全面的创新技术, 精良的设计与制造
成就真正的经典

TECHNOLOGY

Comprehensive and innovative technology and fine design
and manufacturing accomplish the real classics.

斯普鑫全面的创新技术, 拥有国内领先的硬件、软件设施、专业的技术研发队伍, 在项目开发阶段, 项目小组承建工艺、工程设计, 通过大量使用工业工程电脑辅助设计及工艺模拟系统, 通过CAD电脑辅助设计, 三维的模拟效果, 斯普鑫能够优化整个生产过程的效果, 使客户对整个项目一目了然。

Sipuxin has comprehensive and innovative technology, nationally leading hardware and software facilities as well as professional technical research and development team. During the project development stage, the project team receives and develops process and project design. By adopting computer-aided design for industrial project and process analog system, we are capable of optimizing the effect of the whole production process and making clients clear about the whole project.

资质

一份耕耘, 一份收获,
一次次播撒希望, 一次次收获喜悦

QUALIFICATION

No pains, a harvest!
Sow hope again and again, again and again to harvest joy

每份证书都是我们奋力拼搏的结晶, 每份荣誉都是我们的金名片和通行证,
是我们一个个路标, 是我们一次次的历程。

All the certificates are the crystallization we have struggled, Each honor are our gold card
and passport, they are every signpost of Siptuxin which record every journey of us.

原件材料来源 MATERIAL SOURCES OF PARTS

主要部件价值80%以上的元件材料来自世界著名厂商
80% of the main parts of our products are provided by world's famous suppliers.

展示

精品多样化、
规范化铸就企业实力和品牌

SHOW

Diversified and standardized fine
products build enterprise strength and brand.

装备

每项技术革新
都凝结着工程师的智慧和汗水

CONCEPT

Each item of technical innovation
concentrates intelligence and sweat of engineers

斯普鑫坚信优质的产品除了有优质的管理、优秀的员工，更须拥有先进、精良的机械加工专用设备。市场竞争的基础，离不开生产实力，离不开完善先进的硬件设施。深知硬件设施重要性的斯普鑫，在同行业率先引进国内外先进的生产设备，几年来更先后投入资金对硬件设施进行更新换代，以国际化的生产设施生产出符合国际标准的高端优质产品。

Sipuxin strongly believes that high quality products are manufactured not only through excellent management, prominent employees, but also through advanced and fine special equipment for mechanical machining. The basis of market competition, inseparable from the production capability, and can not do without an advanced hardware facilities. Sipuxin aware of the importance of hardware facilities, the first peer in the industry to the introduction of foreign advanced production equipment. In recent years has invested funds Hardware facilities for upgrading to the internationalization of production facilities to produce high-end quality products to meet the GMP standard.

因为专注,所以专业 Because the focus, on professional

工程

满足GMP标准
的化妆品机械设备供应商

ENGINEERING EXAMPLE

Supplier of cosmetic machinery
and equipment meeting the GMP standard

经营项目:

真空均质乳化机系列, 高剪切液液搅拌机系列, RO反渗透水处理系列, 储罐, 各式膏霜, 液体, 粉体全自动及半自动灌装线, 各类瓶型压盖机, 旋盖机, 贴标机, 喷码机及其他彩妆, 香水灌装生产线, 实验室设备, 流水线工作台等。

工程

为您提供从工艺设计
到设备安装调试一条龙服务

ENGINEERING EXAMPLE

Providing you with a chain of services including process
design, equipment installation and commissioning

Mixing line:
vacuum homogenizing emulsifiers, high shear liquid detergent mixers, reverse osmosis ion water
devices, various water injection, liquid and ointment semi-automatic and automatic filling production lines,
round and flat bottles automatic and semi-automatic labeling machines, perfume whole-set
production lines, laboratory equipment, flow lines, etc.

公司提供一流的专业工程安装经验和管理经验，本着精益求精的工作态度，为用户提供良好的售后服务，竭诚满足用户的需求。

Our company provides internationally top-ranking professional project installation experience and management experience. By holding the work spirit of keeping improving, we provide users with good after-sales service and meet customer requirements. Professional personnel are the guarantee for good service.

工程

当您选择斯普鑫，我们提供的不仅仅是产品，更是专业、细心、完善的服务

ENGINEERING EXAMPLE

When you choose Sipuxin, we provide professional, considerate and perfect services in addition to products.

因为专注，所以专业 Because the focus, so professional

领域

提供多种特殊应用领域的解决方案,
满足您不同的需求

GENERAL SITUATION

Providing various solutions for special applications to meet your different demands

成套生产线

COMPLETE PRODUCTION LINE

膏霜生产线 Paste & Cream Production Line

洗滌生产线 Liquid Washing Production Line

雾化罐生产线 Aerosol Production Line

粉底生产线 Foundation Production Line

香水生产线 Perfume Production Line

牙膏生产线 Toothpaste Production Line

口红生产线 Lipstick Production Line

香皂生产线 Toilet Soap Production Line

我们的合作伙伴 OUR PARTNER

在与所有客户的合作中, 我们秉持“为客户创造价值优先”的原则, 不追逐短期的企业利润最大化, 我们乐见于能够帮助客户成长和壮大。对斯普鑫而言, 客户不是买方或卖方, 而是同舟共济, 共同成长的伙伴。
In cooperation with all of our customers around the world, our company consistently gives priority to "Creates value for our customers", instead of chasing short-term max profit. We are glad and feel honored to help our customers make their enterprises more potential and powerful. For Sipuxin company, customers are not only the buyers, but also the partners and friends uniting together.

发货

为客户提供最优质的产品，
是斯普鑫人孜孜以求的最终目标

DELIVERY

It is the ultimate goal assiduously sought by Sipuxin personnel to provide customers with products of the best quality.

“诚信无价”这是斯普鑫人提出的响亮口号，诚信果然是无形的，但斯普鑫却把诚信当成资源来开发，确定了“以诚信打造精品，以诚信立足市场，以诚信取得社会，以诚信铸就品牌，以诚信赢得未来”的经营理念。
“Honesty is priceless”, which is a slogan brought forward by Sipuxin personnel. Though honesty is intangible, Sipuxin regards it as a resource to develop, specifying the business philosophy of “creating fine products by honesty, finding a foothold in the market by honesty, getting reliance from society by honesty, building famous brand by honesty and winning the future by honesty”.

营销

真诚服务 赢得信赖
立足于市场 服务于市场

MARKETING

Winning trust through sincere service
Finding a foothold in the market
and serving the market

广大忠实的客户，是斯普鑫赖以生存的基石。“诚实、守信、开拓、进取”是斯普鑫公司信奉的营销理念，与客户共同进步则是我们追求的目标。本公司始终坚持灵活多样的市场营销策略，积极开展以客户为中心的市场营销策划工作，实施地区销售战略，可以满足国内外各地等地区客商的高端需求。

Faithful customers are the base for Sipuxin personnel to survive. "Being sincere, faithful, pioneering and enterprising" is the marketing concept Sipuxin Company always abides by, and it is our goal to seek for mutual progress with customers. By consistently adhering to diversified marketing strategies, our company is actively developing marketing activities revolving around customers and executing the regional sales strategy. We can meet the high-end demands of domestic and international merchants.

SZR Vacuum Homogenizing Emulsifier Series

真空均质乳化机系列

真空乳化机工艺流程图 Flow chart of vacuum emulsifying mixer

真空均质乳化机定义

主要是指物料在真空的状态下，利用高剪切乳化器快速均匀地将一个相或多个相分布到另一个连续相中，其利用机械带来的强劲动能，使物料在定转子狭窄的间隙中，每分钟承受几十万次的液力剪切。离心挤压撞击撕裂等综合作用，瞬间均匀地分散乳化，经过高频的循环往复，最终得到无气泡细腻及稳定的高品质产品。

Definition of vacuum homogenizing emulsifier

It means that when the materials are under the vacuum condition, it makes use of the high shear emulsifier to distribute one or several phases to another continuous phase rapidly and evenly. The materials will be processed in the narrow space between stator and rotor by strong energy of motion produced by the mechanical effect. By the operation of hydraulic shearing, centrifugal extruding, impacting, breaking and turbulence for over 100 thousand times per minute, the materials will be dispersed and emulsified instantly and evenly. After reciprocating circulation at high frequency, the fine finished products of stable and high quality without bubbles will be achieved.

性能及特点

- ◆ 本公司生产的真空均质乳化机品种多样化，其中均质系统分上均质，下均质，内外循环均质，搅拌系统分单向搅拌及双向搅拌，螺带搅拌；升降系统分单缸及双缸升降，并可根据客户要求定做各种符合所需高品质产品；
- ◆ 三重搅拌采用进口变频器调速，可满足不同工艺生产需求；
- ◆ 德国技术的均质结构，采用进口双端面机械密封效果，最高乳化转速可达4200转/分，最高剪切细度可达0.2-5 μm；
- ◆ 真空负压使物料达到无菌要求，并采用真空吸料，特别对粉体物料利用真空吸入避免粉尘飞扬；
- ◆ 主锅锅盖可选升降装置，清洗方便，清洗效果更显著，锅体可选倾斜出料；
- ◆ 锅体采用了三层不锈钢进口板材焊接组成，罐体及管道为镜面抛光，完全符合GMP要求；
- ◆ 根据工艺要求，罐体可加热并冷却物料，加热方式主要有蒸汽及电加热两种；
- ◆ 为确保整套机器控制更稳定，电器采用进口配置，完全可达到国际化标准。

主要组成系统

真空乳化机主要由水相锅、油相锅、乳化搅拌主锅、真空系统、升降系统(可选)、电器控制系统(可选用PLC)、操作平台等组成。

用途及应用领域

该产品主要应用于日化护肤品、生物医药、食品工业、涂料油墨、纳米材料、石油化工、印染助剂、造纸工业、农药化肥、塑料橡胶、电力电子、其他精细化工等，尤其对基质粘度大，固含量比较高的物料乳化配置更见功效。

成功 & 智造 **SIPUXIN**

Performances and features

- ◆ The vacuum emulsifiers produced by our company include many varieties. The homogenizing systems include upper homogenization, lower homogenization, internal and external circulating homogenization. The mixing systems include single-way mixing, double-way mixing and helical ribbon mixing. The lifting systems include single-cylinder lifting and double-cylinder lifting. Various high quality products can be customized according to customers' requirements.
- ◆ The triple mixing adopts the imported frequency converter for speed adjustment, which can meet different technological demands.
- ◆ The homogenizing structure made through German technology adopts the imported double-end mechanical seal effect. The maximum emulsifying rotation speed can reach 4200rpm and the highest shearing fineness can reach 0.2-5 μm.
- ◆ The vacuum defaming can make the materials meet the requirement of being aseptic. The vacuum material sucking is adopted, and especially for the powder materials, vacuum sucking can avoid dust.
- ◆ The emulsifying pot lid can adopt lifting system, easy to clean and the cleaning effect is more obvious, the emulsifying pot can adopt tilt discharge.
- ◆ The pot body is welded by imported three-layer stainless steel plate. The tank body and the pipes adopt mirror polishing, which fully conforms to GMP requirements.
- ◆ According to technological requirements, the tank body can heat or cool the materials. The heating modes mainly include steam heating or electric heating.
- ◆ To ensure the control of the whole machine is more stable, the electric appliances adopt imported configurations, so as to fully meet the international standards.

Main composition

The vacuum emulsifying mixer is mainly composed of water pot, oil pot, emulsifying pot, vacuum system, lifting system (optional), electric control system (PLC is optional), operation platform, etc.

Usage and application field

The product is mainly applied in such industries as daily chemical care products, biopharmaceutical industry, food industry, paint and ink, nanometer materials, petrochemical industry, printing and dyeing auxiliaries, pulp & paper, pesticide, fertilizer, plastic & rubber, electricals and electronics, fine chemical industry, etc. The emulsifying effect is more prominent for materials of high base viscosity and high solid content.

真空乳化机系列
Homogenizing emulsifier series

SZR-HA Duplex Hydraulic Lifting Vacuum Homogenizing Emulsifier (Top Homogenizer) 双缸液压升降上均质真空均质乳化机

机组采用上部同轴三重搅拌器，液压升降开盖，快速均质搅拌器转速：0-3500 r/min(变频调速)，慢速刮壁搅拌器转速：0-63 r/min(变频调速)，均质器采用高剪切涡流式乳化搅拌机，慢速刮壁搅拌自动紧贴锅底及锅壁，采用真空吸料，特别对粉体物料利用真空吸入避免粉尘飞扬，整个工序在真空条件下进行，防止物料在高速搅拌时产生气泡，能达到卫生无菌要求。本机组完全符合GMP要求制造。

The machine has triple blender, hydraulic lift cover, high-speed homogenizer (Speed is 0-3500r/min, frequency speed regulation) and low-speed scraper blender (Speed is 0-63r/min, frequency speed regulation). Fast-cutting vortex emulsification blender is used in the homogeneity part, which can scrape in a low speed and automatically blend and snug up to the bottom and wall of boiler. The machine draws powder material by the way of vacuum in order to prevent the powder flying. The whole working procedure is operated in the condition of vacuum in order to prevent the material coming in being bubble after high-speed blending and reach the request of sanitation and asepsis. The machine is made completely according to the GMP request.

Homogenizing emulsifier series

成功 & 智选 **SIPUXIN®**

SPX-F Fix-type Vacuum Homogenizing Emulsifier 固定式真空均质乳化机

SPX-S Small Vacuum Homogenizing Emulsifier 小型真空均质乳化机

性能及特点

- ◆ 搅拌采用无极调速，使搅拌线速度在0-150m/min内任意调节，满足不同工艺要求；
- ◆ 先进的均质机，采用美国ROSS公司技术，结构独特，效率超群；
- ◆ 凡接触物料部分均采用进口不锈钢材料，容器内表面镜抛光300EMSH(卫生级)，符合卫生要求；
- ◆ 真空吸料，真空脱泡，整个工艺在真空状态下完成，无细菌传染，延长产品保质期；
- ◆ 造型美观大方，外观采用特殊抛光技术，光泽如镜，更显设备豪华名贵。

Capability & Characteristic

- ◆ Stepless speed adjustment is adopted during the blending so that the speed of blending line can be randomly adjusted within the range of 0-150m/min to meet different technological requirements.
- ◆ The advanced homogenizer adopts technology from USA ROSS Company, featured by unique structure and prominent efficiency.
- ◆ The parts that contact the materials are all made of imported stainless steel. The interior surface of the vessel is subjected to mirror polishing 300EMSH (sanitary level), which is in accordance with sanitary requirements.
- ◆ The whole process including vacuum material suction and vacuum defoaming can be completed under the vacuum status without cellular contamination, and thus, prolonging shelf life of products.
- ◆ Beautiful and decent appearance, which adopts special polishing technology so that it is shining like a mirror, displaying luxurious character.

液洗搅拌锅系列
Liquid washing mixer series

SJB Liquid Detergent Blending Mixer

液洗均质搅拌锅

成功 & 智造 SJPUXIN®

最新研制

自吸式AES溶解器，在液洗产品生产，减轻工人投料时的劳动强度，缩短溶料时间。

Latest research and development

During the production of liquid washing products, the self-suction type AES dissolver can alleviate worker's labor intensity of feeding and shorten dissolving time.

性能及特点

- ◆ 全方位的刮壁搅拌采用了变频器调速，可根据客户要求生产不同工艺的高品质产品；
- ◆ 多样化的高速均质机，强力混合固体及液体原料在液洗生产中能快速溶解AES、AESA、LSA等难溶物料，节约了能耗，大大缩短了生产周期；
- ◆ 锅体采用了三层不锈钢进口板材焊接组成，锅体及管道为镜面抛光，完全符合GMP要求；
- ◆ 根据工艺要求，罐体可加热并冷却物料，加热方式主要有蒸汽及电加热两种；出料方便，可直接出料，也可配置输送泵出料。

Performances and Features

- ◆ The wall scraping mixer adopts frequency converter to adjust the mixing speed which would make various kinds of products according to the customers' requirements.
- ◆ The diversified high speed homogenizer can powerfully mix solid liquid products and dissolve the material like AES, AESA, LSA etc. it save energy consumption and shorten the production time.
- ◆ The pot body is welded with three layers imported stainless steel. The whole machine and pipes are mirror polished which is definitely satisfied with the GMP standard.
- ◆ According to different processing, the main pot can be heated and cooled down, steam heating or electric heating. Discharge from the bottom by the homogenizer or by a transfer pump.

液洗搅拌锅系列
Liquid washing mixer series

SJB-D Liquid Detergent Blending Mixer (single Tank)
液洗均质搅拌锅(单罐)

性能及特点

- ◆ 本机组专为中小型企业设计，班生产能力可达三次，机组分主锅、副锅、不锈钢输送机、支架平台、控制系统。
- ◆ 只需在主锅锅内送料、溶解、搅拌、均质，再由输送机输入副锅进行冷却、添加香精等。
- ◆ 出料时亦可放料，亦可用泵出料。
- ◆ 适用于电加热的工作环境，主锅用于加热均质，副锅直接用于冷却、乳化、速度快、效益高。

Performances and Features

- ◆ The system is specially designed for small and medium-sized enterprises, it can work for three batches every day. The system consists of main pot, ancillary pot, stainless steel suction pump, platform and controlling system.
- ◆ We shall pour materials into the main pot to dissolve, mix, homogenize. Then the material pump will transfer the material into the second pot to cool down or mix with perfume essence.
- ◆ It can be discharged by both the homogenizer and pump.
- ◆ It is better for electric heating condition. The main pot is used for heating and homogenizing, the second pot is used for cooling and emulsion. This makes it fast and efficient.

成功 & 智造 SIPUXIN®

用途

本公司生产的液洗均质搅拌机主要用于液体洗涤剂(如洗洁精、香波、沐浴露等)产品的配置,搅拌机集搅拌、分散、加热、冷却、泵出料、脱泡(可选型)等功能于一体,是国内外目前厂家配置液洗的理想设备。

Usage

This unit is available for manufacturing liquid products (such as detergent, shampoo, shower gel, etc.) It integrates mixing, homogenizing, heating, cooling, pump discharge finished products and defoaming (optional) functions. It is the ideal equipment for liquid products in domestic and international factories.

液洗搅拌锅系列
Liquid washing mixer series

SJB-P Polypropylene Anti-Corrosive Mixer 聚丙烯防腐搅拌锅

本厂生产的PP、PVC塑料搅拌机主要适用于化工、医药、石油等行业，特别适用于任何高腐蚀性的强酸、强碱化工生产亦适用于化妆品行业的电发水生产。

This PP, PVC plastic mixer is mainly used in chemical, medicine, petroleum, and other industrial lines. It is specially for the strong causticity product. Such as the strong acid and alkali and the water for hair care product.

特点

它的钢体用PP、PVC塑料制作，与任何化工产品不产生化学反应，搅拌桨叶由搪瓷制作，搅拌机为防爆电机，它具有重量轻，安装维修方便，耐腐蚀性好等优点。其操作压力 $\leq -0.1\text{Mpa}$ ，操作温度(PP)-10°C~100°C，(PVC)-10°C~60°C。

Feature

The mixer pot is made of PP, PVC, plastic material. It is very hard to reaction with any chemical product. The stirring blade is made of enamel. This machine has explosion preventin motor. It is very easy to operate, light, also can anticorrosive. The work pressure $\leq -0.01\text{Mpa}$, work temperature(PP)-10°C~100°C, PVC-10°C~60°C.

SCG-J Mixing Storage Tank 搅拌储罐

根据贮存能力的不同由100-15000L，贮存能力在20000L以上的贮罐，建议使用室外贮罐，贮罐使用SU5316L或304-2B不锈钢制成，贮罐具有良好的保温性能，附带装置如下：进、出口料口、人孔、温度计、液位指示器、高低液位报警器等，防蝇、防尘呼吸气孔、无菌采样口、计量器、CIP清洗喷淋头。

According to storage capacity, the storage tanks are classified into tanks of 100-15000L. For storage tanks with storage capacity of more than 20000L, it is suggested to use outdoor storage tanks. The storage tank is made of SU5316L or 304-2B stainless steel and has good heat preservation performance. The accessories are as follows: inlet and outlet, manhole, thermometer, liquid level indicator, high and low liquid level alarm, fly and insect prevention sprays, aseptic sampling vent, meter, CIP cleaning spraying head.

SRO Reverse Osmosis Water Treatment
反渗透纯水装置

SRO-500L 全自动一级反渗透水处理(全不锈钢)
SRO-500L Full Automatic One Stage Reverse Osmosis Water Treatment (Stainless Steel)

SRO-2000LH 全自动二级反渗透水处理(全不锈钢)
SRO-2000LH Full Automatic Two Stage Reverse Osmosis Water Treatment (Full Stainless Steel)

性能及特点

- ◆ 反渗透装置体积小，操作简单，适用范围比较广；
- ◆ 用反渗透装置，处理工业用水，不耗用大量酸碱，无二次污染，它的运行费用也比较低；
- ◆ 反渗透脱盐率 ≥ 99%，整机脱盐率 ≥ 97%，能够有效去除 98% 的有机物，胶体，细菌等；
- ◆ 产水电导率好，一级为 ≤ 10 μs/cm，二级为 2-3 μs/cm 左右，EDI ≤ 0.5 μs/cm (原水 ≤ 300 μs/cm)
- ◆ 操作自动化程度高，无需人工看守，水满自动停机，无水自动开机，自动空气定时冲洗前置滤料，IC 微电脑控制器自动冲洗反渗透膜，原水、纯水电导率实现在线显示；
- ◆ 进口部件高达 90% 以上；

Performances and features

- ◆ This system occupy little space, easy to operate, wide application range.
- ◆ When used for disposing industrial water, the reverse osmosis device does not consume large amounts of acids and alkalis, and there is no secondary pollution. In addition, its operation cost is also low.
- ◆ Reverse osmosis desalting rate ≥ 99%, machine desalting rate ≥ 97%. 98% of organic matters, colloids and bacteria can be removed.
- ◆ Finished water under good electric conductivity, one stage is 10 μs/cm, two stage around 2-3 μs/cm, EDI ≤ 0.5 μs/cm (base on raw water ≤ 300 μs/cm)
- ◆ High operation automation degree. It is unattended. The machine will automatically stop in case of water sufficiency and automatically start in case of no water. Timed flushing of front filtering materials by automatic controller. Automatic flushing of reverse osmosis film by IC microcomputer controller. Online display of raw water and pure water electric conductivity.
- ◆ Imported parts account for over 90%.

SGZ Fully Automatic Filling Machine 全自动灌装线

本系列活塞式灌装线适用于灌装不同黏度的水剂类产品，广泛地适用于日化、食品、医药、油脂等各个行业。
This series piston filling machine is suitable for various kinds of high viscosity liquid products such as chemical, food, medical, grease industries etc.

本系列机种维护便利，无需任何特殊工具。真正做到调节便利，无瓶不准、装量准确。同时具有计数功能。

This series machine is easy for maintenance, operation, adjustment. It doesn't need any tools. It is with precise filling system, it will not start filling if there is no bottles and it is also with count function.

防腐型液体灌装线
Anti-corrosion Liquid Filling Machine

结构与性能

- ◆ 整机包括：二至十二个灌装头、可调速控制输送带、高强度不锈钢框架、日本三菱触摸屏等。
- ◆ 特色配置：有效防止滴漏与拉丝的灌装喷头，用于膏体产品的灌装升降系列、及进一步确保瓶口定位的横向瓶口定位系列。灌装头个数根据客户需要添加。

Structure & performance

- ◆ This machine can be made to 2-12 filling nozzles. The speed of conveyor belt can be adjusted. It is made of imported stainless steel frame bracket, Japan Mitsubishi touch screen etc.
- ◆ Special configuration: efficient anti-leakage and dripping. Automatic falling and raising design make it better for foam products. It is with positioner for sensor the bottle mouths. The filling nozzles can be made to order.

该产品适用于灌装膏体液体并且可灌装具有一定粘稠度的物料。可根据所调节的速度手动或自动灌装。在设备制造上，气动部件多数是采用了优质的进口部件，如气动元件采用了FESTO，根据需要可加装加热、搅拌系统。缸体采用了优质的不锈钢，活塞采用聚四氟乙烯制成，缸缸连接部分采用的是快装连接，拆装清洗方便。其工作原理是通过空压机气源驱动活塞来完成吸料、出料。

This product is suitable for filling ointment liquid and viscosity materials. Filled by hand or automatic system according to the speed. For manufacturing pneumatic components are mostly adopts imported parts, such as pneumatic components using FESTO. According to the needs, install of heating, stirring system. The cylinder body adopts the high quality stainless steel, the piston is made of polytetrafluoroethylene, the cylinder connecting part is connected with fast. Convenient dismounting and cleaning. Its principle of work is adopted the air compressor and air driven piston to complete the suction.

SGZ-RG Soft Tube Filling & Sealing Machine 软管灌装封尾机

产品说明

本机适用于日化、制药、食品、化工行业等采用软管包装的产品的灌装封尾、日期打印。本机特点：采用机械结构，运转平稳，速度快，效果好，噪音低，结构简单，操作及维修方便，故障率低。本机采用进口快速高效的加热器及高精度流量计形成的热风加热系统，具有封口牢固、速度快、自动插管、自动定位，PLC控制，定位准确，异形封尾机使软管封尾千姿百态，配有有机玻璃防尘罩。

超声波封尾机
Ultrasonic Type Tube Sealing Machine

Product instruction

This machine suits for filling & sealing double-color materials, date printing on the tubes, and can be applied in the industries of daily chemical, pharmacy products, food and chemical etc. Features: It adopts mechanical structure, smooth and fast operation, high efficiency, low noise, simple structure, convenient operation and maintenance and low fault. It enjoys rapid and efficient heaters and stable hot-air flow heating system which is imported, and it also has the advantages of firm sealing, high speed, automatic and precise position. PLC control system, and various sealing machine makes the sealing end in different shaped. Assembled With dust-proof of organic glass.

主要技术参数 Technical parameter

电源 Power Supply	380(220) V/50Hz
生产能力 Capacity	20-30g/min
灌装范围 Filling Volume	10-200ul
计量精度 Dosage Precision	≤± 5% ≤± 3% ≤± 2%
可封管径 Tube Diameters Sealed	φ16-φ50mm
外形尺寸 Dimension(L×W×H)	2100×1020×2300mm
重量 Weight	600kg

SGZ-LG Aluminum Tube Filling & Sealing Machine 铝管灌装封尾机

产品说明

用途与性能：AFS铝管灌装封尾机是我公司研制的主要产品。此机型主要用于以金属软管为包装容器的物料的灌装、封口。该产品采用封闭式及半封闭式灌装膏、液，封口无渗漏，灌装重量、容量一致性好，灌装、封口、打印一次完成，适用于医药、日化、食品、化工等领域的产品包装。如：皮炎平、软膏、染发剂、牙膏、鞋油、胶粘剂、AB胶、环氧胶、塞丁胶等物料的灌装与封口。本机灌装量调节方便、快捷，外形美观，结构紧凑。管座为可调式管座，可根据灌装软管的尺寸调节。凡与物料接触部分全部采用优质不锈钢常用304,医用采用316L。独特的箱体结构，实现膏液两用，是医药、日化、精细化工等行业理想实用、经济的灌装设备。

Product instruction

Usage and Performance: AFS Filling & Sealing Machine used for Aluminum Tube is one of main latest products of our company. It is full automatic. This machine can be used for filling cream and liquid materials, and it is characteristics with firm filling, high precision of dosage. The three functions of filling, sealing and batch numbering can be automatically completed. It is widely used in pharmacy, daily chemical, food, chemical industries, such as for filling pharmacy cream, hair colorant, toothpaste, leather oil, glue, AB glue, epoxy adhesive, neoprene adhesive etc. Convenient and quick dosage adjustment, high efficiency, good-looking, compact structures are the features of the machine. The tube cups can be adjusted according to the tube dimensions. The important parts of the machine which contact directly to the filling material are made of stainless steel (SS304 is for general use, and SS316L is for pharmacy use). A special valve makes this machine be suitable for filling cream and liquid material. It is an ideal and economical filling machine in the pharmacy, daily chemical, fine chemical and other fields.

产品说明

本机适用于铝管的灌装封尾，四道折边，封尾牢固美观。

Product instruction

It is suitable for filling and sealing aluminum tube, with 4 seams. The sealed end is firm and attractive.

主要技术参数 Technical parameter

电源 Power Supply	380(220) V/50Hz
灌装量 Filling Quantity	10-50ml 10-100ml 100-200ml
计量精度 Dosage Precision	≤± 3% ≤± 3% ≤± 2%
生产能力 Capacity	30g/min
可封管径 Tube Diameters Sealed	φ16-φ35mm
外形尺寸 Dimension(L×W×H)	1200×1020×1700mm
重量 Weight	285kg

SGZ-Q Aerosol Filling Machine 气雾剂灌装机

三合一气雾剂灌装机
Triad Aerosol Filling Machine

半自动气雾剂灌装机
Semi-automatic Aerosol Filling Machine

全自动气雾剂灌装机
Automatic Aerosol Filling Machine

三合一气雾剂灌装机 Adb-ar Three-in-one Aerosol Filling Machine

该机由原半自动气雾剂灌装机经过改进,优化,集成而来。将半自动灌装,封口,充气三台机器安装在一个工作台上。只需一人操作脚踏阀一次即可同时完成所有动作。速度快,精度高,稳定性好,省时省力,是中小型气雾剂生产厂家的理想选择。

This machine is made from the former semi-automatic aerosol filling machine. It assembles the liquid filling, inflate and seal on the same table, it needs only one worker to operate it. It has high speed, high-accuracy and good stabilization. Good choice for the medium-sized and small-scale company.

主要技术参数 Technical parameter

灌装容量 The filling capacity	30-500ml
灌装精度 Filling accuracy	≤ ± 1%
生产能力 Production capacity	800-1200 b/h
适用瓶口 For the valve	3"

全自动气雾剂灌装机 Adb-ar automatic aerosol filling machine

该机吸收国外先进技术,灌装头单独控制,无罐不出料;封口头采用导向式封口,如封口质量不高机器就会自动停止;充气头采用导向式充气,准确、高效、耗气极少。可配置自动称重机、自动压大盖机及喷码机。目前该机在同行中属领先水平,已远销欧洲、美洲、非洲、东南亚。

The machine is produced by absorption of foreign advanced technology. Its filling end is controlled separately, no discharging without filling; being sealing-guided, the machine will automatically stop if the sealing quality isn't good; the way of the oriented inflation in the charging end is accurate and efficient with minimal gas consumption. It can be matched with automatic weighing machine, automatic capping machine and spray code machine. Being in the peer-leading level, the machine has been exported to Europe, America, Africa, and Southeast Asia.

主要技术参数 Technical parameter

灌装容量 Filling Capacity	50-750ml
灌装精度 Technical Parameters	≤ ± 1%
充气容量 Inflation Capacity	50-750ml
充气精度 Inflation Accuracy	≤ ± 1%
封口精度 Clamping Accuracy	≤ ± 1%
生产能力 Production Capacity	1800-2400 cans/h
工作压力 Working Pressure	0.45-1Mpa
最大耗气量 Maximum Air Consumption	3m ³ /min
适用气雾罐直径 Applicable Aerosol Can Diameter	35-65mm
适用气雾罐高度 Applicable Aerosol Can Height	80-300mm

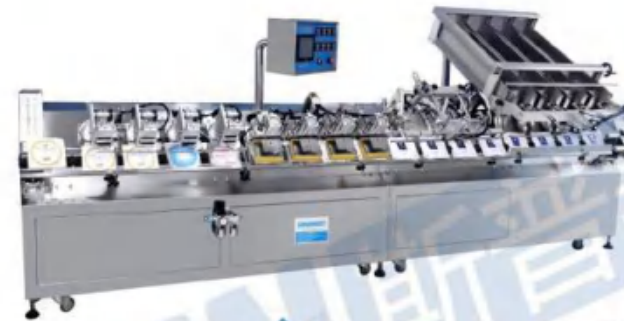

SFM Automatic facial Mask Filling & Sealing Machine 全自动面膜机

技术特点

- 包装流程全自动,无需人工操作;
- 物料接触部分均采用优质不锈钢制造,符合GMP标准;
- 智能检测,有袋灌装封口,无袋,不充填,无袋,不封口;
- 德国PLC系统,功能强大,经久耐用;
- 整机控制采用7寸彩色中文触摸屏,设备运行运行参数设定方便、直观,同时具备产量统计和设备故障自动诊断功能,让生产管理,设备管理更高效;
- 智能数显温控系统,封口温度自动补偿,控温精准,封口不良率超低;
- 整机气动原件均选用知名品牌,工作寿命长,维护更换方便;
- 可根据客户需要订购不同的充填方式,灌装头数量可定制。

Technical feature

- Automatic packaging process, no need to manual operation;
- Material contact parts adopt high quality stainless steel manufacturing, according to GMP standard;
- Intelligent detection, bag filling sealing, no bag, no filling, no sealing;
- Germany PLC system, powerful, durable;
- The machine applies 7 inch color touch screen with easy and clear setup parameter, as well as auto diagnosis for errors;
- Intelligent digital display temperature control system. The sealing automatic temperature compensation, temperature control precision, the seal failure rate low;
- The machine pneumatic selects the well-known brand, long working life, convenient maintenance replacement;
- According to customer different way of packing, the filling nozzles can be customized.

新款高速面膜机
New Design High Speed Mask
Filling and Sealing Machine

主要技术参数 Technical parameter

包装速度 Packing speed	3500-4500
功率 Power	3.6kW/AC380
灌装精度 Filling accuracy	± 0.2-0.5
灌装高度 Filling height	4
工作压力 Work pressure	0.6-0.8MPa
密封温度 Sealing temperature	120-180°C
可封袋宽度 Scope of sealing	180-140mm W120-180mm
开袋方式 Method for open the bag	Subfer to open bag

STB Labeling Machine 贴标机

产品功能特点

- ◆ 本机适用于化妆品、饮料、医药行业；
- ◆ 中英文触控操作系统，真正实现人机对话，操作简单易学；
- ◆ 送标机可0°垂直调整，更换不同尺寸的产品调节简单快捷；
- ◆ 采用动力软胶辊确保贴标质量，气缸夹辊结构提高贴标精度；
- ◆ 专用圆瓶贴标，重复贴标精度高，无气泡；
- ◆ 往复式气缸定位产品，可在产品的指定位置精确贴标，一次可选贴一张标签或两张标签，特别适合圆瓶的前后对称贴标；
- ◆ 可根据客户需要连接生产线流水作业，单机作业可增加自动上料泵等设备，也可根据需要特殊定制。

Product features

- ◆ This model applies to cosmetics, beverages and pharmaceutical industries areas.
- ◆ Equip with PLC touch screen has two language of Chinese and English easy to operate.
- ◆ Labeling sending system can be changeable by adjustment of 0°-dimensional space, easily changeable to suitable for different bottles sizes.
- ◆ Adopt dynamical soft roller-covered roll to make sure labeling quality, the structure of Cylinder clamping roller would improve the labeling precision.
- ◆ Special label for round bottles, precision is high and will not appear bubble on the surface.
- ◆ Air compressor is reciprocating type to position the bottles, it can stick one or both label at one time, it is special suitable for both sides labeling.
- ◆ We can customized machine for your request, the labeling machine can be connect with filling machine, screw capping machine, material transport pump, etc.

Capping Machine

手持式旋盖机
Portable Manual Screw
Capping Machine

Principle and features

Suitable for the cap screwing of different shapes of bottles in the industries of foodstuff, pharmaceuticals, daily chemical, pesticide and cosmetics etc. Its four adjustable speed motors are used respectively for cap supplying, bottle clamping, delivering and cap screwing. It is characterized by high level of automation, outstanding stability, easy adjustment, no need of spare parts for replacing bottle types or caps, which can be done only by making adjustment. (If fitted with capping machine, it may carry out automatic capping).

喷码机系列
Inkjet printer series

SPX Inkjet Printer 喷码机

性能及特点

- 喷印字符种类：阿拉伯数字、英文、中文、图形、商标等。
- 喷印功能：
 - 程序号、批号、型号、产品计数显示并喷印；
 - 日期编排，实时时钟自动变更显示并喷印；
 - 信息延时喷印，信息重复存储喷印；
 - 反向倒转字体喷印；
 - 字符加粗加宽1-9倍选择喷印；
 - 字体的高度和宽度任意调整。
- 喷嘴墨水喷射压力稳定，可设定、可自动检测调整。
- 先进的墨水粘度测量装置和准确的控制软件，确保长期恒定的墨水粘度。
- 采用独特的相位检测电路和软件，可以在各种环境下保证打印质量。

Performance and feature

- Printing character types: Arabic numerals, English, Chinese, graphics, trademarks, etc.
- Printing functions:
 - Display and printing of sequence No., batch No., shift No. and product count.
 - Display and printing of date scheduling, real-time clock automatic change.
 - Information delayed printing, information repetitive storage and printing.
 - Printing of reverse and inverted characters.
 - Printing of characters thickened and widened by 1-9 times.
 - Free adjustment of character height and width.
- The nozzle has stable ink jetting pressure, and setting, automatic detection and adjustment can be carried out.
- The advanced ink viscosity measuring device and accurate control software ensure long-term constant ink viscosity.
- The unique phase detection circuit and software are adapted to ensure printing quality under various environments.

主要技术参数 Technical parameter

型号 Model	K200

喷印行数 Printing line	喷印速度1-3行的喷印信息 Character three lines of printing information
字符高度 Character height	1.5-12mm
最快喷印速度 Highest printing speed	喷印速度: 6米/秒(5×7点阵单行最快) Printing Speed: 6m/seconds(5×7 lattice single is fastest)
喷印速度 Ink speed	1600字符/秒(单行5×7点阵) 1600 characters/seconds (single line 5×7 lattice)
喷印方向 Printing direction	360° 全方位喷印(Omni-directional spray print)
喷印材料 Printing material	纸、塑料、金属、玻璃、木材、橡胶、石材、石化品等其它 Paper, Plastic, Metal, Glass, Wood, Rubber, Steel, Stone, Ceramics and other materials etc.
材质 Material	全不锈钢 Full stainless steel
使用电源 Power supply	220V±20VAC
功率 Power	120W
机器尺寸 Machine size	400×210×510mm
喷头 Nozzle	45×40×160mm
机器重量 Machine weight	33kg

彩妆设备系列
Makeup cosmetic machine series

SCM Makeup Cosmetic Machine 彩妆设备

压粉机
Powder Compacting Machine

口红填充机
Lipstick Filling Machine

主要用途

产品适用于充填口红、唇彩、唇膏等产品。十二口红，瞬间完成。一定能够满足各方面的高质量充填要求。

结构与性能

- ◆ 本机机身采用不锈钢材料制作，经过精心缜密设计，外观美丽大方，符合力学原理。
- ◆ 不锈钢316L双层料桶（内外抛光）隔油加热。料桶采用搅拌及温控。
- ◆ 充填部分采用机械式动作，精准的步进电机为该设备提供了准确的充填定量，其旋转角度精确到0.02度。
- ◆ 人机智能与电热系统方面，采用PLC控制整个动作过程，使该机更具人性化，简易明了的人机介面使操作更简单。发热方面是用高科技的温控仪系统控制，整个系统可同时控制二十组温度，避免了单个操控的复杂与烦琐，带来整个稳定出色的发热系统。

Usage

This machine is suitable for filling lipstick and lip gloss, lip balm etc it is with 12 filling nozzles, instant filling certain to meet various kinds of requirements.

Structure & performance

- ◆ This machine is made of stainless steel which is conformed to mechanical principle with the beautiful appearance and precise design.
- ◆ Stainless steel 316L double jacket material tank is mirror polished from both inner and outer surface. It is with mixing and temperature controlling system.
- ◆ Filling part adopt mechanical movement, advanced motor makes the precise filling volume reach 0.02 degree.
- ◆ Full automatic control system, simple computer interface makes operation easier. The heating system is fixed with advanced temperature controlling system which can control 20 units of temperature data to avoid troublesome and complex of simple control. It makes the heating system stable and excellent.

特点

- ◆ 动作方式可依作业情况或使用者的需求采用手动模式或自动模式；
- ◆ 压粉下压计时设计可设定压板压粉时间并能增加压板停顿时间；
- ◆ 保压计时设计可以让粉中的空气有排除时间，而更符合各种原料的特性；
- ◆ 压粉计数设计可设定压皮下降次数，增加对原料的适应性；
- ◆ 需要双手同时按压按钮来启动运转，确保使用者的安全。

Characteristic

- ◆ It depends on the production situation or user's requirements to select manual way or automatic way.
- ◆ Time of compaction is adjustable.
- ◆ This design is keeping powder to be compacted for a long time so as to let air out of powder completely.
- ◆ Powder compact counting function can set up the pressing board working times, which suit for more materials.
- ◆ It is necessary to press down the bush button with both hands simultaneously to start it up to ensure the safety of the operator.

标准配置

- ◆ 不锈钢保温冷冻罐及钛金属盘管
- ◆ 超低温冷冻机组(进口)
- ◆ 防腐气动隔膜泵(进口)
- ◆ 聚丙烯微孔过滤膜(可选板框过滤器)
- ◆ 不锈钢移动支架
- ◆ 密封式电控系统及卫生级管件阀门

Standard configurations

- ◆ Stainless steel heat preservation freezing tank and titanium metal coil pipe
- ◆ Ultra low temperature freezing unit (imported)
- ◆ Anticorrosive pneumatic diaphragm pump (imported)
- ◆ Polypropylene microporous filtration film (plate and frame filter is optional)
- ◆ Stainless steel moveable supporter
- ◆ Sealing type electric control system and sanitary pipe fittings and valves

产品介绍

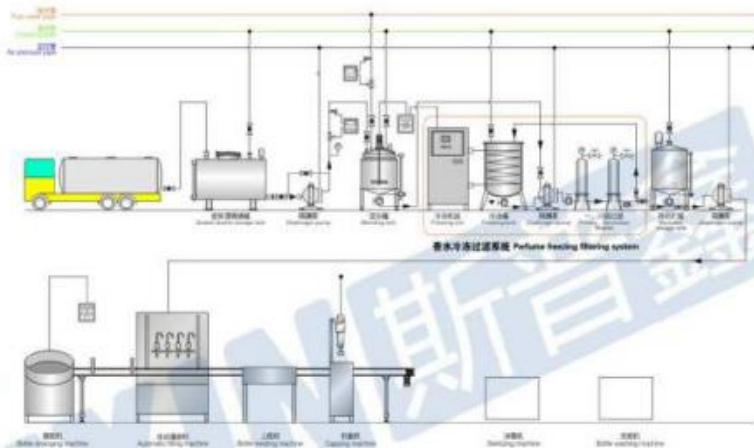

本产品是我公司最新开发出来的专业用化妆品、香水等经过冷冻对液体的澄清过滤；是化妆品厂过滤化妆水、香水的理想设备。本产品材质均采用优质304不锈钢或316L不锈钢制造，用美国进口气动隔膜泵，作为压力源，进行正压过滤。

连接管道采用卫生级抛光管，均采用快装式连接形式，方便拆卸和清洗。

配套使用聚丙烯微孔过滤膜，广泛用于化妆品行业、科研部门、医院、实验室等单位对少量液体的澄清和除菌过滤，或微量化学分析，方便可靠。

成功 & 智造 SIPUXIN®

Product introduction

The product is a latest product developed by our company specially used for clarification and filtration of liquid such as cosmetics and perfume etc. after freezing. It is an ideal device for filtering cosmetics and perfume in cosmetics factory. The product is made of high quality 304 stainless steel or 316L stainless steel. The pneumatic diaphragm imported from USA is adapted for pressure source to carry out positive pressure filtration.

The connecting pipes are sanitary polishing pipes, which completely adopt rapid installation type connection form, with convenient assembly, disassembly and cleaning.

Equipped with polypropylene microporous filtration film, it can be widely used in cosmetics industry, scientific research department, hospital and laboratory etc. for clarification, bacteria removal and filtration of small amount of liquid, or micro chemical analysis, which is convenient and reliable.

SXS-G Perfume Filling Machine 香水灌装机

香水灌装机，用于花露水、香水和其它水性物料的灌装。本机采用负压、定液面方式灌装，有四头和六头两种规格。根据用户需要，可提供防爆型。

Perfume filling machine is used for filling floral water, perfume and other water-based materials. The machine adopts negative pressure And fixed liquid surface type filling. It includes two kinds of specifications such as four-head and six-head. Explosion-proof type products can be provided according to user requirements.

特点 Features

负压吸液灌装，产品灌装量以液面高度为计量方式。装有脚轮，移动方便。与物料接触零件及台面均用304不锈钢材质。

适用于玻璃瓶，或抽真空后瓶体不易变形的塑料瓶。调整、操作、维修方便。

Negative pressure liquid sucking filling. The filling volume is measured according to liquid level.

Castor wheels are installed for convenient movement.

The parts and table surface that contact the materials are all made of 304 stainless steel. Suitable for glass bottles, or plastic bottles whose body will not be easily deformed after vacuum extracting.

Convenient adjustment, operation and maintenance.

SGZ-GY Cream & Liquid Sachet Packing Machine 膏液袋包机

全自动膏液袋包灌装机 Fully-auto Liquid Packing Machine

特点

该机是集自动制袋、计量、灌装、封口、切袋为一体。有单袋和四袋联体包装机之分。其中Y型为膏、液体用X型为固体物包装用，可采用三边封或四边封设计，封口牢固，废品率低。广泛应用于日化、食品、制药、化工等行业。包装材料：纸/聚乙烯；聚酯、聚乙烯；尼龙/聚乙烯；聚酯/铝箔/聚乙烯等。

Feature

This machine integrates bag producing, counting, filling, sealing and bag cutting, and is divided into single bag packaging machine and four bags packaging machine. Y type is used for cream and liquid materials, X type is used for solid materials, both adopt three sides or four sides sealing, the sealing effect is firm and the unqualified rate is low. This series machine is widely applied in daily chemical, food, pharmacy, and chemical industries. The packaging materials include: paper/polyethylene; polyester. Polyethylene; nylon/polyethylene; polyester/aluminum foil/polyethylene, etc.

主要技术参数 Technical parameter

型号 Type	SGZ-GY

SBZ-3D Transparent Film 3D Packing Machine 三维透明膜包装机

功能特点

本机器是用玻璃纸或BOPP镀膜对不同规格的硬纸包装盒、包装品等进行三维包装的设备。该机是我公司在吸取国内外同类产品先进技术的基础上进行创新设计而成的。它以机械联动机构为主体,采用无级变频调速和自控电气附属设备,集机、电、气为一体,具有运行稳定可靠、封口牢固、平整美观等特点。可对物品进行自动包裹、热封、计数,并自动粘贴防伪拉线,包装速度可无级调速,缺盒不下膜,对色标(按客户需求)等功能,在更换少量零件的情况下,可包装不同规格的盒式物品。

Functional Features

This machine is suitable for overwrapping different specification of carton box with cellophane or BOPP film, which is designed innovatively on the basis of introducing and absorbing the congener products advanced technology at home and abroad. The main body of the machine is mechanical united structure. It introduces stepless frequency speed controller, automatic control and electrical accessory equipment. On the combination of machine, electricity and pneumatic parts, it has the features of stable and reliable operation, firm sealing, smooth surface and beautiful appearance. It can do packing automatically, heat sealing, counting, and automatically sticking tear tape to single or multiple cases. The machine has stepless packing speed adjustment, no film loading protection component if case-track, anti color bars calibration feature etc. (according to customer's requirements) We only need to change few parts to pack variety of specification of products.

SPX Double Line Internal Bottle Washing Machine 双列间歇式洗瓶机

半自动洗瓶机
Semi Automatic Bottle Washing Machine

双列间歇式洗瓶机
Bottle Washing Machine

SPX采用人工上瓶, 间歇式定位内外冲洗, 再道水洗, 一道气吹, 保证高压水柱和压缩空气准确吸入瓶内, 水洗第一道采用自来水, 第二道采用纯水(纯水配有水箱, 可循环利用); 第三道采用气吹, 用来吹干水滴, 提高烘干效率。

SPX Bottles are placed to this machine by hand, batch located and both inside and outside washed. In this machine, bottles will be washed twice by water and once by air. The machine could guarantee high pressure water column and compressed air jet into bottles precisely. Bottles will be first washed by normal clean water, then by pure water (Pure water will be stocked in a water tank and recycled), at last by compressed air which could blow droplet off the bottle and enhance the efficiency of bottle dry.

主要技术参数 Technical parameter

冲瓶头数 Washing heads: 48头(pcs)
工作效率 Capacity: 2000-3000瓶/小时(bottles/hour)
电机功率 Power: 1.5kW/220V
适用瓶高 Suitable Bottle Height: 50-150mm
适用瓶径 Water Consumption: 25-80mm
用水量 Suitable Bottle Dia: 1.5 m³/h
冲瓶压力 Working Pressure: 0.2-0.4 MPa
外型尺寸 Machine Size: 2700 x 670 x 1180(mm) (L x W x H)

SPX Full-automatic Bottle-drying Sterilizer 全自动烘瓶消毒机

性能及特点

- ◆外观美观新颖,采用全不锈钢制作;
- ◆整机烘瓶过程为连续不间断式工作;
- ◆占地面积小,节省烘干时间,可做到随用随烘;
- ◆烘干机的传送为变频调整,可根据不同的瓶型任意调节烘干速度,烘干温度可在0-300°C之间任意调节,保证原瓶烫金,烫银之效果;
- ◆紫外线杀菌,确保玻璃瓶烘干后不带有成活细菌,延长产品的保质期;
- ◆内部烘干采用不锈钢风热棒,确保其使用寿命;
- ◆烘瓶速度50-200个/分钟。

全自动烘瓶消毒机
Full-automatic Bottle-drying Sterilizer

Performance and feature

- ◆Appearance is beautiful and modern, it adopts completely stainless steel;
- ◆The drying process is continuous;
- ◆It occupies small area, save a lot of time;
- ◆The speed of feeding is able to adjustable frequently. You can adjust the speed in according to different bottles model. Temperature of drying is 0-300°C, will not destroy the effect of foil stamping or Silver foil;
- ◆Ultraviolet sterilization, make sure it won't have survival of bacteria after drying;
- ◆inside of the drying box adopts stainless steel wind heating rod;
- ◆Drying speed: 50-200 pcs/min.

热风循环烘箱 Hot Air Circulation Oven

该系列产品全部采用轴流风机,配备了自动恒温温度控制系统,并备有电脑控制系统以供选择。其工作原理是利用蒸气或电力热源,通过换热器加热空气,以轴流风机为动力,使热物料含湿度降低,达到干燥目的。

The series of products completely adopt axial fan equipped with automatic constant temperature control system, which is provided with computer control system for option. The working principle is to make use of the steam or electric heat source, through heating the air by heat exchanger and adopting the axial fan as the driving power, the moisture content of hot materials is reduced so as to realize the purpose of drying.

主要技术参数 Technical parameter

型号 Model	蒸发面积 Evaporating area (m ²)	加热功率 Heating power (Kw)	风机功率 Fan power (Kw)
SPX-100(单门)	7	9	0.45
SPX-200(双门)	14	15	0.45

热风循环烘箱 Hot Air Circulation Oven

SPX Stepless Speed Adjustment Conveyor 无级调速输送机

皮带输送机

皮带输送机是经济型的输送设备,适用于输送100kg以下的物品或粉状、颗粒状物料,具有运行平稳、噪音低、连续输送、外形美观的特点。皮带输送机除可以输送普通的物料外,还可以满足耐油、耐热、耐腐蚀、防静电等特殊物料输送。

Bel conveyor

The belt conveyor is an economic conveying device, which is suitable for conveying powder and granule materials below 100kg. It has such features as stable operation, low noise, continuous conveying and beautiful appearance etc. In addition to conveying ordinary materials, the belt conveyor can also convey oil-resistant, heat-resistant, anticorrosive and anti-static special materials.

链板输送机

链板输送机的输送面平坦光滑,摩擦力小,物料在输送线之间的过渡平稳,可输送各类玻璃瓶、PET瓶、易拉罐等物料,也可输送各类箱包。链板有不锈钢和工程塑料等材质,也可采用联接于牵引链上的各种结构和形式的平板或链板等承载构件来承托和输送物料。

Chain scraper conveyor

The conveying surface of the chain scraper conveyor is flat and smooth with small friction. The transition of materials between the conveying lines is stable. It can be used to convey various glass bottles, PET bottles and pop cans etc. materials, as well as various luggage and baggage. The chain scraper can be made of stainless steel and engineering plastic materials. The flat plates or dissepiments of various structures and forms connecting the traction chain can be used as supporting components to support and convey materials.

SPX Grinding Mixing Equipment 研磨搅拌设备

功能特点

乳化、均质、分散、混合、粉碎、研磨，各类乳状液物料广泛应用于食品、制药、化工、利用化工、陶瓷、沥青、炸药、煤炭等行业。

设计紧凑、造型美观、密封良好、性能稳定、操作方便、装修简单、效率高等特点。是外理精细物料的理想设备。YFJ系列产品除特型电机及部分部件外，凡与物料接触的部件全部采用高强度不锈钢制成，尤其关键的动、静磨盘进行热处理强化，因此具有良好的耐磨和耐磨性，使所加工的物料无污染，卫生纯洁。

Functional Features

Emulsifying, homogenizing, dispersing, mixing, crushing, various kinds of emulsion material are widely use in food, pharmaceutical, chemical, china, asphalt, explosive, coal mine area, etc.

Compact design, beautiful appearance, well sealing, stable performance, it is easy to operate and maintenance, high efficiency which is an ideal equipment to deal with fine tiny material. YFJ Series product except some special type model, the rest is adopt high strength stainless steel which is contact with material. Especially dynamic and static millstone. And it has good performance in protect it from corrosion and abrasion, make sure the final product without pollution and tidy.

SPX One-stop Services
一站式服务

本公司配合市场及客户的需求, 不断研发、更新以及完善各类产品, 全力打造中国首个化妆品机械“一站式”购物平台, 竭诚为海内外、外客户提供机械、设备、化妆品原料、包材及技术咨询服务。

According to our market and our customer's requirement, we are continuously in researching, developing and improve ourselves. We are focusing on building the first platform of "One-stop" service in our cosmetic machinery area. Wholeheartedly provides high quality, the fast service for the general new old users at home and abroad.
