**NATURAL MICRO-BEADS, THE NEW TECHNOLOGY!**

The Natural Micro Beads technology uses a mineral material from the natural earth which is non-toxic and entirely environmentally friendly. The beads have the capability to gather moisture from the air and retain them inside for long time. When the micro beads are activated by microwave, they heat very fast and penetrate soothing moist heat quickly and deeply which is more ideal for hot therapy than dry heat.

Washable, odor-free, dust free  
Convenient and environmentally friendly  
Not dry out, not dissolve, not disintegrate
