COMPANY INTRODUCTION

Yiwu Jiedu Machinery Equipment CO.,Ltd is situated in Yiwu City of Zhejiang Province where is famous international small commodities market base. The company is a manufacturing enterprise that sets research and development, design, production, sales as one, specialized in 3D transparent film packaging machine and packing material. It has a group of senior technicians and machinery processing equipment, possesses perfect mechanical production process and quality assurance system.

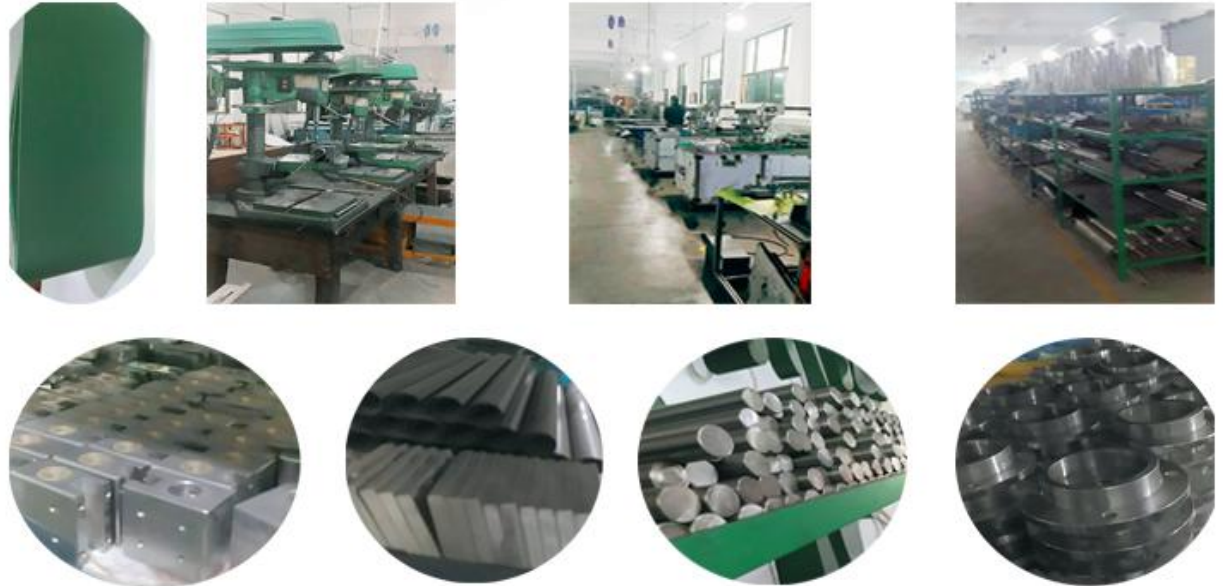

OUR FACTORY

According to different products specifications and production process requirements, the company can customize production matching equipment as customers' requirements. The main products of company :

- **Machine:** Manual/semi-automatic/automatic (3d transparent film packaging machine) Cellophane packing machine, shrink packing machine, Mask making machine, soft tube filling machine,
- **Packing material:** BOPP Film, Easy open tear tape.

The equipment in beauty cosmetics, food, medicine, health care products, toys and stationary etc.

Top Quality ,Customer First

Jiedu always follows the business philosophy of “Quality first, Being honest and trusty worthy, Customer first ,Attentive work, careful service”. All staff in Jiedu are honest and trustworthy for the purpose, take the technology as the precursor, we fully play to technical talents and constantly absorb advanced technology abroad to offer all-round service to customers. Over the year, Jiedu always puts quality and innovation in the first place. People in Jiedu strive to achieve that every piece of equipment produced can return your trust and support by the highest quality.

PACKAGING MACHINE

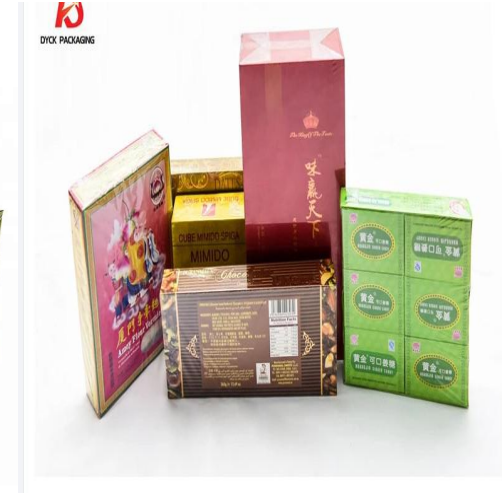

3D TRANSPARENT FILM PACKAGING MACHINE - -JD-260

JD-260 is a frequency control high speed 3D transparent film packaging machine designed carefully according to market demand. According to collecting the technical improvement suggestions and valuable critical experience in the course of production and use of customers with different package demands, designers carefully reform and a series of operation like push bag, beak angle, put film and shaping are completely solved. Can add Servo system, easy open device, Cover

When switching products, it can pack case/box products in different specification only by changing different moulds with low cost and easy operation. It is applicable for function like package, wrapping, folding, side sealing, end sealing, upper and lower sealing, shaping, counting, automatically stick anti-fake tear tape of products.

The machine is widely applicable to all kinds of individual package with right angle box, like play cards box, health care products box, medicine box, cosmetic box, perfume box, condom box and so on. The box packed by this machine in high speed running are flat, beautiful, environmental, moisture-proof and has good tightness which has recognized and praised by customers over the years.

Main Technical Parameters

Packing speed	40-110 bags/min
Packing size	L*W*H 50-200*30-150*8-50mm
Power consumption	About 4.5kw
Voltage	220V 50 HZ/60HZ
Working air pressure	0.6mpa
Weight	350kg
Machine dimension	2400mm*740mm*1500mm
Packing material	Heat sealable bopp film, adhesive anti-fake tear tape

3D TRANSPARENT FILM PACKAGING MACHINE---JD-160

JD-160 is a frequency control high speed 3D transparent film packaging machine designed carefully according to market demand after lessened on the basis of JD-260. According to absorbing technical advantages of similar models abroad, with the careful reform of designers, a series of operation like push bag, beak angle, put film and shaping are completely solved.

Can add cover, six-side device, Servo system.

Main Technical Parameters

Main Techical Parameters	
Packing speed	40-110 bags/min
Packing size	L*W*H 50-140*30-90*8-35mm
Power consumption	About 3.5kw
Voltage	220V 50 HZ/60HZ
Working air pressure	0.6mpa
Weight	350kg
Machine dimension	2400mm*665mm*1500mm
Packing material	Heat sealable bopp film, adhesive anti-fake tear tape

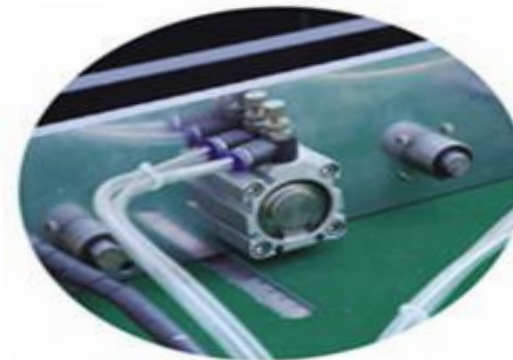

Scope of Application

- This machine is widely used to all kinds of individual package with right angle case, like stationery, hair coloring agent, wiping gun, chewing gum, blade, cigarette holder, essential balm, eye drop, condoms, small boxed tea, eraser, cosmetic, medicine, poker and so on.

3D TRANSPARENT PACKAGING MACHINE

— JD-360

JD-360 is a new 3D transparent film packaging machine improved on the basis of original ordinary machine , which assembly PLC control system, Servo drive system and high quality pneumatic unit can fully adapted to automatic point iron,flat iron and its speed is adjustable.The electricity adopts PLC control and man-machine interface operating system.The main drive parts all use mechanical action.The Servo motor put film with auxiliary of pneumatic components.Due to the simple and quick regulating function in operation ,it can conveniently pack various size of box products only by simple change of moulds.The stable production process can enhance the production efficiency of enterprise while the loss of material is reduced.

Machine Advantages

While operator in the replacement of different size products,the specification of packing film,running speed and some technical parameters are integareted in the man-machine interface unit,which enormously improve the work efficiency of changing specifications of different box products.It ensures the flat,beautiful,sealed,envinmental protection and moisture-proof function of packaging product appearance.

Main Technical Parameters	
Packing speed	30-50pcs/min
Packing size	L*W*H (50-280mm)*(40-220mm)*(6-90mm)
Power Consumption	Maximum 5.6kw
Voltage	220V/50HZ
Working Air Pressure	0.6mpa
Equipment Weight	about 650kg
Machine Dimension	2600mm*930mm*1700mm
Convey Dimension	1500mm*320mm*1000mm
Extra Service	Cover,Easy open service

Scope of application

- JD-360 is mainly applicable to the automatic 3D transparent film packaging of goods individually or collectively packed in right angle box in cosmetics ,food,medicine,health care products,vedio products,stationery and other industyies,such asmedicine,tea,wine,millk,powder,perfume, facial mask,cream,simming tea,condoms,poker,cigarette and all kinds of individual or collective package with right angle box,which can be customized according to specific customer requirements of products.

3D TRANSPARENT PACKAGING MACHINE

—JD-400

JD-400 is a new 3D transparent film packaging machine improved on the basis of JD-360, which assembly PLC control system, Servo drive system and high quality pneumatic unit can fully adapted to automatic point iron, flat iron and its speed is adjustable. The electricity adopts PLC control and man-machine interface operating system. The main drive parts all use mechanical action. The Servo motor put film with auxiliary of pneumatic components. Due to the simple and quick regulating function in operation, it can conveniently pack various size of box products only by simple change of moulds. The stable production process can enhance the production efficiency of enterprise while the loss of material is reduced.

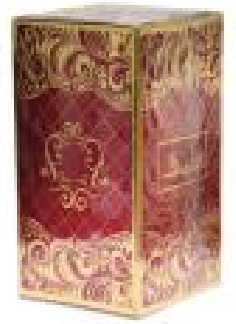

Main Technical Parameters

Main Technical Parameters	
Packing speed	10-40pcs/min
Packing size	L*W*H (50-360mm)*(40-280mm)*(6-110mm)
Power Consumption	Maximum 5.6kw
Voltage	220V/50HZ
Working Air Pressure	0.6mpa
Equipment Weight	about 650kg
Machine Dimension	2600mm*930mm*1700mm
Convey Dimension	1500mm*320mm*1000mm

Application

Covering the film on various box.

Just need change the moulds

In dividually pack and Collectively pack

JD-150 MANUAL PACKING MACHINE

JD-200 SEMI-AUTOMATIC MACHINE

Main Technical Parameters

Packing speed	10-30pcs/min
Packing size	L*W*H (50-280mm)*(40-220mm)*(6-90mm)
Power Consumption	Maximum 5.6kw
Voltage	220V/50HZ
Working Air Pressure	0.6mpa
Equipment Weight	about 250kg
Machine Dimension	1050*2300*850mm

JD-4525 SHRINK PACKING MACHINE

Jet-Propelled Shrink Film Packing Machine+Full-automatic Sealing & Cutting Machine

This machine consists of 2 individual machine-products firstly put in Sealing & cutting machine, it cut film and help seal film. Then shrink machine start its work.

According to their perfect cooperation, workers just need feed products and carton, which reduce corporation's labor cost and extra cost. Meanwhile, the working efficiency is improved largely.

DETAILS

SHRINK FILM PACKING MACHINE		
Machine	Size	L*W*H (1800*703*1260mm)
Shrink Furnace Size		L*W*H (1500*450*250mm)
Max. Packing	Size	W*H 400*200mm
Convey	Speed	0-10pcs/min
Machine	Voltage	380V/50HZ
Machine	Power	13.8 kw
Convey	Material	The chain of kun
Machine	Weight	300kg
Packing	Material	POF/PVC
Convey	Speed	0-12pcs/min

DETAILS

SEALING & CUTTING MACHINE

Machine	Size	L*W*H 1760*940*1580 mm
Max. Sealing	Size	L 550*450mm
Packing	Material	PE /PVC/POF
Working	Air Pressure	5-6kg/cm2
Working	Speed	0-40 pcs/min
Max. Packing	Size	H<=120mm L+2H<=550mm W+2H<=450mm
Film	Thickness	0.01-0.06mm
Machine	Voltage	220V/50HZ

TUBE FILLING AND SEALING MACHINE

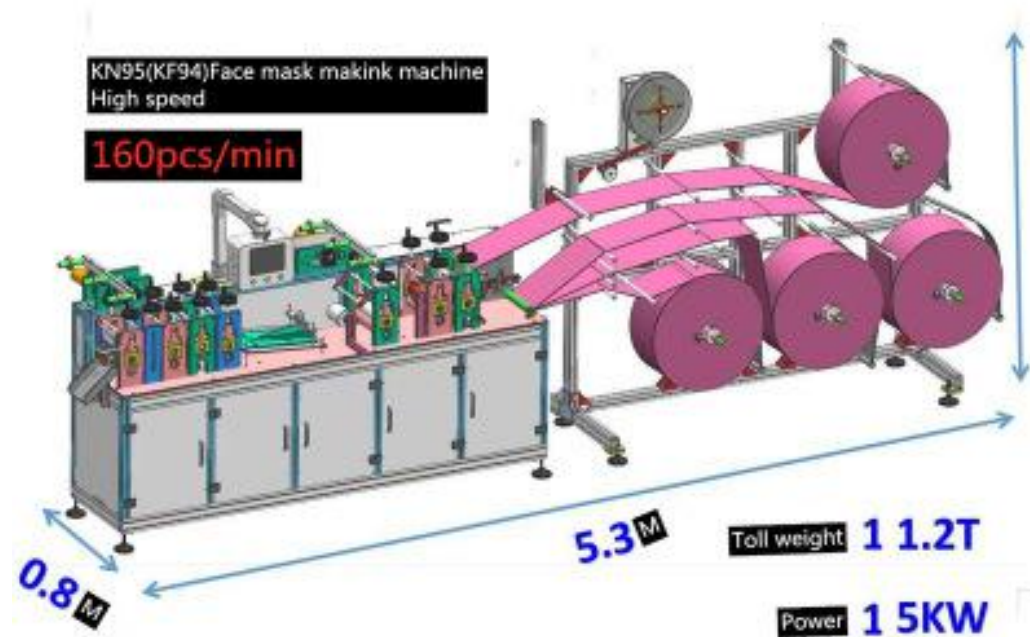

The ultrasonic wave hose seals the tail machine series to use in the toothpaste, the cosmetics, the drugs, food, the industry thing, and so on each kind of hose seals the tail.

Technical Parameters

Production	Capacity:	2400-3000unit/hour, Adjustable
Filling	Volume:	1-250ml/unit (Adjustable)
Tube	Diameter:	Φ10-50 mm
Tube	Length:	50-200mm
Tube	Length:	50-200mm
Hopper	Volume:	40L
Working	Power:	380V/220V (Optional
Machine	Power:	7kw

KN95 MASK MAKING MACHINE

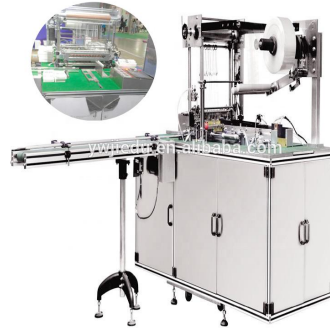

Main Technical Parameters

Product speed	40-50pcs/min
Finished products size	Adult Mask
Voltage	220V/50HZ
Working Air Pressure	0.6-0.7Mpa/cm ² , the use flow rate is about 300L / min
Equipment Weight	about 600kg
Machine Dimension	L4400 * H1800mm * W950mm

PACKGING
MATERIAL

Bopp film

Length& Width: Can be customized
Thickness:15um~50um
Price is adjustable according to thickness of film
Application:Package,Printing

Double-side heat seal BOPP film

Length& Width: Can be customized
Thickness:15um~50um
Price is adjustable according to
thickness of film
Application:Package

Single-side heat seal bopp film

Bags making film

Length& Width: Can be customized

Thickness:15um~50um

Price is adjustable according to thickness of film

Application:Package,making packing bags.

Anti-fake Tear Tape

Red

Pink

Black

Golden

Color:red,white,black,golden,transparent or customized

Width:1.8mm~8mm

Length:4000m~10000m

Usage:packing,easy to unpack and protect .

Support to print company name,logo etc.
