GUANGZHOU OLY NAIL FACTORY

GUANGZHOU OLY NAIL FACTORY

Company profile

Established in 2006, Guangzhou Oly Nail Factory is a professional manufacturer of nail products, which integrates R&D, production and sales.

We have our own brands, 'L'UGX' and 'OSLY'. Our factory produces NAIL DRILL, UV LED LAMP, GEL POLISH and so on, which have passed the certificates of CE, MSDS and ROHS. With the core of "Honesty, Quality First" and the concept of "Customer Service, Common Development, Mutual Benefit and Win", we are committed to make 'L'UGX' and 'OSLY' be the best nail brand in China, as well as a famous nail brand in the world.

With an area of about 5000 square meters, our company has advanced production equipment and perfect technical quality system. Our products are exported to Europe and America, South America, Russia, Japan, Korea, etc. With professional products and reasonable prices, we have won many favorable comments of customers from home and abroad.

We are providing OEM and ODM services, and sincerely looking forward to cooperating with you!

Top coat

Matte top

The matte top coat can make the mask a unique matte effect, and remove the oil to protect the color of the nail, increasing the stability and firmness of the nail surface.

Tempered top

The tempered top coat is more transparent, brighter and wear-resistant than ordinary ones. It effectively prevents the surface from scratching and it is clear and transparent.

Rubber top

The rubber top coat has great toughness and wear resistance. It protects color and can maintain for a long time.

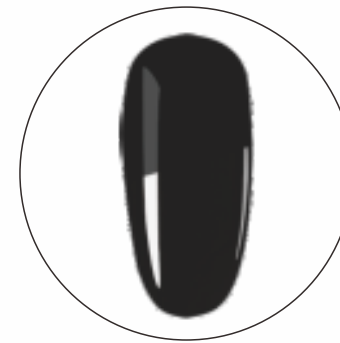

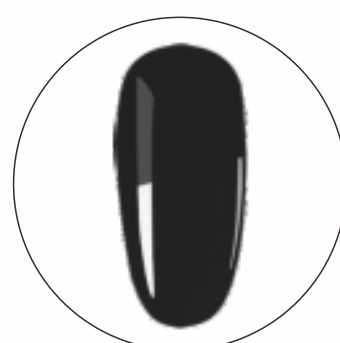

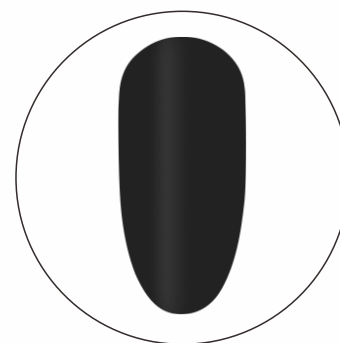

Base

Reinforce base

Imported base gel, made by imported material, it can enhance the adhesion between gel polish and nail, which makes gel polish firmer, and isolates nail and gel polish to protect the surface of nail.

Rubber base

Rubber base gel has great toughness and wear resistance, which makes nail smoother before putting gel polish. It is suitable for the areas with low temperatures.

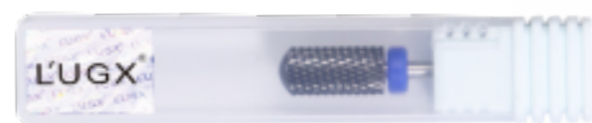

6pcs per set nail drill bits set

Professional nail drill bits,
it's easy to deal with various nail problems.

No hurts on hands or nails, easy for installation,
quickly removing the nails, compact.

Round-shaped

Original imported nail drill bit from Japan.

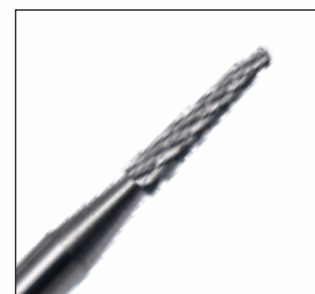

Designed with round-shaped head, it will not hurt skin when using. It's mainly used for removing the hard glue, it can work quickly on removing the nail polish, gel nail glue, nail slices, etc.

Corn-shaped

Original imported nail drill bit from Japan.

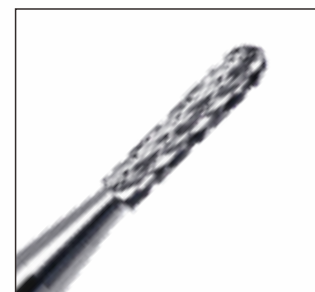

The pointed design is mainly used to remove soft glue, and can quickly remove nail polish, gel nail glue, extension glue, crystal nails, etc. It's widely used.

Removing diamond

Tungsten steel nail drill bit for removing the diamond on your nail

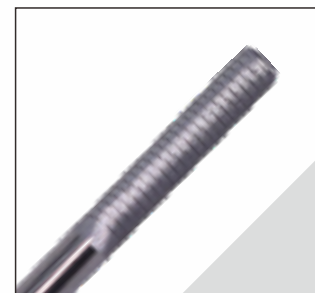

It's used to remove the glue and then cut down the diamond.

Dead skin removing

Tungsten steel nail drill bit for dead skin removing

It's used to remove the calluses on sides of nails and remove the thick cuticles.
