## bio-phyto concentrate

- BIO-ACTIVATING ANTI-WRINKLE PHIALOIDS
- HIGH REGENERATION PLANT STEM CELLS PHIALOIDS
- COUPEROSE AND REDNESS SOOTHING PHIALOIDS
- BREAST FIRMING PHIALOIDS
- INTENSIVE ANTI-CELLULITE PHIALOIDS
- INTENSIVE ANTI- HAIRLOSS PHIALOIDS
- HAIR GROWTH RETARDING OIL

## Active principles:

HYALURONIC ACID. Super moisturizer; plasticizer of the dermal matrix

GINSENG EXTRACT. Tonifier and stimulant of cellular metabolism

HYDROLYZED PHYTOELASTIN IN LIPOSOMES. Highly bioavailable elasticising ingredient

HYDROLYZED PHYTOCOLLAGEN IN LIPOSOMES. Highly bioavailable dermocompacting ingredient

VERBENA ESSENTIAL OIL. Metabolic stimulator, absorption enhancer

VITAMIN E. Antioxidant, anti-radicals

VITAMIN A. Tissue and epithelium regenerator

Cosmetics for the treatment of wrinkles involve several mechanisms of action and act at many levels:

- Hydration of the horny layer and hydrolipidic film reconstruction;
- Stimulation of cutaneous cell metabolism;
- Use of antioxidant and anti-radical substances;
- Stimulation of the cutaneous microcirculation.

The high concentration of active principles contained in the product ensures a complete action and is a crash treatment to be done periodically in cycles of 20 days to be repeated during the year, especially after the winter to prepare the skin to sun exposure and after the summer to lessen the damaging effects of a long exposure to UV rays.

F01 - 10 x 5ml

## Active principles:

PLANT STEM CELLS (LEONTOPODIUM ALPINUM): have a biostimulating action and act on the biochemical processes of tissue regeneration.

HYALURONIC ACID: ensures the maintenance of a correct moisture level of skin and visage.

ELASTIN LIPOSOMES: have a moisturising effect, stimulate the synthesis of collagen with a high absorption capacity.

BORAGE OIL: rich in Omega-3 and Omega-6 it contributes to the preservation of skin cellular structure.

ROSA MOSQUETA OIL: regenerates cellular membranes, protects the epithelium and has an anti-ageing function.

VITAMIN A: regenerates the epithelium and gives elasticity.

VITAMIN E: has a high anti-radicals and antioxidant power.

Anti-ageing cosmetics act on:

- Hydration of the horny layer and hydrolipidic film reconstruction;
- Stimulation of cutaneous cell metabolism;
- Use of antioxidant and anti-radical substances;

The functional active principles of the product based on Edelweiss stem cells and the correct combination of eudermic oils act rapidly and effectively on the regeneration of the epidermal cells, visibly and considerably reducing the effects of time and wrinkle formation.

F02 - 10 x 5ml

Apply daily on all visage and neckline exerting a gentle circular massage to favour absorption. Ideal for night facepacks. It can be used along with any other functional and/or decorative cosmetic treatment.

Apply daily on all the visage and neckline exerting a gentle circular massage to enhance absorption. It can be used along with any other functional and/or decorative cosmetic treatment.

## Active principles:

NASTURTIUM EXTRACT. Purifying, refreshing

WITCH HAZEL EXTRACT. Astringent, purifying and decongesting

CENTELLA EXTRACT. Vasoprotective, tones the vascular walls

BLUEBERRY EXTRACT. Prevents capillary fragility

ELDER EXTRACT. Calming

CHAMOMILE EXTRACT. Soothing and anti-inflammatory properties

EPILOBIUM EXTRACT. Purifying, rebalancing

ALLANTOIN: Softening. Keratoplastic action

Concentrated solution for crash treatments. Thanks to its soothing and demulcent elements it is recommended for sensitive, delicate, couperose skins which are frequently reddened and easily irritated by external factors. It is an ideal treatment with immediate effect. It can be used daily in addition to a moisturising cream for delicate skins.

DIRECTIONS FOR USE.

Apply daily on all the visage exerting a gentle circular massage to enhance absorption. It can be used along with any other functional and/or decorative cosmetic treatment.

F03 - 10 x 5ml

VILIGHT<sup>®</sup>  
BEAUTY

SOURCE OF BEAUTY

## BREAST FIRMING PHIALOIDS

Active principles:

JOJOBA OIL. Nourishing, emollient, eudermic  
 SWEET ALMOND OIL. Emollient, elasticity enhancer  
 AVOCADO OIL. Elasticity enhancer, hydrolipidic film normaliser  
 ROSA MOSQUETA OIL. Emollient, cell regulator, decongestant  
 VITAMIN E. Anti-radicals, antioxidant  
 VITAMIN A. Epithelium regenerator, elasticity enhancer  
 YARROW. Tonifier, moisturizer and softener  
 EUCALIPTUS OE. Tonifier, refresher

This beauty treatment, specific for atonic breast and neckline, gives the skin tone, compactness and elasticity. The elements composing the product favor the hydration of the horny layer and contribute to a rapid reconstruction of lipid layers. Their action boosts the re-epithelizing process and improves skin elasticity.

A constant use of the product gives very good results in case of breast atony, giving tone and turgidity. It is also very good in the prevention of skin relaxation during pregnancy or diets and in sustaining and giving elasticity to cutaneous tissues. In these cases a regular use prevents stretch mark formation. Rich in vegetable oils, vitamins and essential oils, it is pleasant to massage giving elasticity and tone to the breast. Repeat the treatment 3-4 times a year.

Apply daily on all breast and neckline, exerting a gentle massage from the bottom to the top to favour absorption. Ideal for night packs.

F04 - 10 x 5ml

DIRECTIONS FOR USE.

## INTENSIVE ANTI-CELLULITE PHIALOIDS

Active principles:

ALLANTOIN. Keratoplastic action  
 BUTCHER'S BROOM EXTRACT. Action vasoconstrictor  
 IVY EXTRACT. Draining, absorbs liquids and reactivates microcirculation  
 COMFREY EXTRACT. Soothing  
 SEA KELP EXTRACT. Action vasoprotective, astringent  
 ORGANIC IODINE. Action lipolytic, draining, removal of liquids  
 THYME ESSENTIAL OIL. Action purifying, soothing, stimulating  
 FUCUS EXTRACT. Action metabolic stimulant, antioxidant

A product with a high concentration of conveying active principles and a high skin penetration capacity, specific for the treatment of anti-aesthetic subcutaneous adipose deposits. Its effectiveness is due to two actions aimed at normalizing a series of disequilibrium states typical of cellulite. Ivy and Butcher's Broom extracts reduce extra-vascular infiltration and stagnation of liquids (edema) and improve microcirculation thus helping the drainage of tissues. The resulting macroscopic effect is that lipid nodules encapsulated in the subcutaneous tissue are less visible and less perceptible by touch.

Fucus extract and organic iodine favour the return to a normal lipid metabolism.

They accelerate the turnover of excessive triglycerides accumulated in superficial fat cells (adipocytes) responsible of the anti-aesthetic effects of the typical "orange peel skin".

The minimum estimated period for the treatment to give objective results is 30 days with 1, if possible 2, daily applications followed by an optional maintenance period of 2 weekly applications for the subsequent 2 months. The product must be applied with adequate fingertips massage from the bottom to the top to favour both active principle penetration and mechanical draining effect. Apply the cream on the areas of interest massaging until completely absorbed. The appearance of a light redness along with a sensation of warmth is normal and characteristic of the product.

The product for external use only. Keep out of the reach of children.

Apply only on intact and healthy skin. Wash your hands accurately after use.

F05 - 10 x 5ml

DIRECTIONS FOR USE.

Active principles:

PROPOLIS EXTRACT. Antiseptic, antioxidant  
 MILLET EXTRACT. Restructurer, film former, aa sulphides supplier  
 ROSEMARY EXTRACT. Antioxidant, skin purifier  
 NETTLE EXTRACT. Purifier, astringent, anti-inflammatory  
 SERENOA EXTRACT. Antiandrogen, sebum equalizer  
 BELL PEPPER EXTRACT. Revulsive, stimulator of cutaneous microcirculation  
 EUCALIPTUS ESSENTIAL OIL. Antiseptic, epithelial regenerator  
 PINE ESSENTIAL OIL. Stimulator of cutaneous microcirculation  
 MINT ESSENTIAL OIL. Refresher and stimulator of microcirculation

Concentrated intensive hair treatment, rich in phytocomplexes and essential oils, useful in helping the return of hair to normal physiological conditions. It stimulates normal hair growth and retards the Teologen phase involving the following mechanism:

- Peripheral microcirculation stimulation,
- Hair bulb and hair nutrients supplier,
- Antioxidant and protective effect on the macrostructures of skin and its annexes,
- Purifying and antiseptic effect.

This product is to be used as crash treatment.

The starting dosage is two phials a week for the first two weeks; followed by a phial per week.

The product is to be applied with a gentle fingertips massage until completely absorbed.

A light reddening of the skin is a sign of a correct action of the product.

F06 - 10 x 5ml

Active principles:

GERANIUM ESSENTIAL OIL. Keratolytic action, action on the hair papilla retarding the hair growth.  
 MELISSA ESSENTIAL OIL. Sedative, cooling, antispasmodic action.  
 ARNICA MONTANA LIPID SOLUBLE EXTRACT. Anti-inflammatory, analgesic action, improves circulation.  
 RICE OIL. Protective, shielding, emollient and demulcent action.  
 CAROTENE. Sebum normaliser indicated for the treatment of dry skins with no lipids

This vegetable product retards the growth of hairs. It is composed of Geranium essence, Melissa, Arnica lipid soluble extract and vegetable oils.

Applied on the skin after depilation, it acts on the follicles also exerting a protective action. Regular applications can reduce hair re-growth up to 80%.

The use is recommended after depilation with Intense Pulse Light, laser and traditional methods. Apply an adequate quantity of product on the areas treated for two or three days after depilation. To reduce hairs on visage or in cases of hypertrichosis or hirsutism a regular daily application is recommended.

F07 - 10 x 5ml

## bio.fito face treatment

SUPER-HYDRATING CREAM PHYTO ELASTIN WITH LIPOSOMES  
HYALURONIC ACID AND COLLAGEN PEARLS FACE CREAM

ANTI- AGE PLANT STEM CELL OF EDELWEISS CREAM  
ANTI-COUEROSE HAMAMELIS CHAMOMILE BLUEBERRY CREAM

ANTI-ACNE AZELAIC ACID AND VITAMIN F CREAM

WHITENING ANTI-SPOTS CREAM TO KOJIC ACID

PURIFYING EXFOLIATING SCRUB CREAM

NOURISHING MASK WHITE CLAY, HONEY AND GINSENG

PURIFYING MASK GREEN CLAY, PROPOLIS AND CAMPHOR

CALMING AND DECONGESTANT ALFA BISABILOL MASK

## 01 SUPER-HYDRATING CREAM PHYTO ELASTIN WITH LIPOSOMES

Functional principles:

LIPOSOMES OF PHYTO ELASTIN. Moisturizer; stimulates the synthesis of deep penetration collagen

LIPOSOMES OF COLLAGEN. Moisturizer, deep penetrating elasticizer

HYDROLYZED WHEAT PROTEINS. Deep moisturizer, film builder

HYDROLYZED SILK PROTEINS. Gives moisture, elasticity, firmness, supplies AA sulphurates

JOJOBA WAX. Nourisher, highly eudermic emollient

Deep moisturizing and anti-wrinkle treatment, specific for tendentially dry skin, rich in natural macro polymers that can hold high quantities of water on the skin surface and stimulate the natural biochemical processes of skin cells. Thanks to the deep penetrating capacity of the liposomal vehicle, vegetal elastin liposomes in particular can penetrate into the deeper skin layers, stimulate the natural process of collagen synthesis and improve the anti-wrinkle effect. This cream is suitable for mature skin but it can also be used on younger skin as an intensive moisturizing treatment.

DIRECTIONS FOR USE.

Apply the oil on the body and massage with circular movements from the bottom upwards, concentrating on areas with more adiposity. Apply regularly, even twice daily.

LV21 - 50ml

## 02 HYALURONIC ACID AND COLLAGEN PEARLS FACE CREAM

Functional principles:

HYALURONIC ACID. Moisturizer, anti age, anti wrinkles, filler

LIPOSOMES OF COLLAGEN. Moisturizer, deep penetrating elasticizer

LIPOMOIST HYDRATION FACTOR. Deep moisturizer

JOJOBA OIL. Moisturizer, nourisher, lipid film regenerator

EXTRA VIRGIN OLIVE OIL. Emollient, soother, anti-oxidant

CYCLOPENTASILOXANE. Gives a velvety effect and a bright aspect

Soft silky emulsion characterized by a rich but not greasy sensation when applied. It contains a complex of fats combined with functional vegetable extracts and dermaffine proteinic derivatives with a regenerating and nourishing function. All formulated in an inverted phase innovative cosmetic system that can deep moisturize and nourish the skin for a long time without stopping natural transpiration.

This product is a complete nourishing and anti-wrinkle treatment to be used as an anti-age for the face and eye contour. Just after the first application the skin will appear brighter and smoother, velvety and silky to touch. It is recommended for mature skin, for particularly dry and dehydrated skin or for the use in cold or dry climate.

DIRECTIONS FOR USE.

Apply daily in the morning on face, eye contour and neckline, massaging gently to favour absorption. For a crash treatment apply a good dose of the product in the evening, massaging shortly and leaving the product work all night.

LV22 - 50ml

## Functional principles:

PLANT STEM CELLS. (*Leontopodium alpinum*): have a bio-stimulating action and act on the biochemical processes of tissue regeneration.

HYALURONIC ACID. Ensures the maintenance of a correct moisture level of face skin.

LIPOSOMES OF ELASTIN. Have a moisturising effect, stimulate the synthesis of high absorption collagen.

BORAGE OIL. Rich in Omega-3 and Omega-6 fatty oils, it contributes to the preservation of skin cellular structure.

ROSA MOSQUETA OIL. Regenerates cellular membranes, protects the epithelium and has an anti-ageing function.

VITAMIN A. Regenerates the epithelium and gives elasticity.

VITAMIN E. Has a high anti-radicals and antioxidant power.

Silky and soft emulsion, characterized by a rich but not greasy sensation. The product is a 24 hour treatment based on active vegetable stem cells formulated with an effective mix of fats and vegetable extracts with thickening and elasticizing proprieties which give turgidity, compactness and nourishment to mature, weak and devitalized skin.

The cream is a complete nourishing and anti-wrinkle treatment to be used as an anti-age for face and eye contour. It helps in the prevention of collagen degeneration, responsible for skin ageing, intervening on the reduction of lipids.

The vegetable stem cells (*Leontopodium Alpinum*) together with precious substances (borage oil, rosa mosqueta oil, hyaluronic acid, liposomes of elastin, vitamin E acetate and vitamin A palmitate) contribute to obtain a secure and effective anti-wrinkle action thank to their high moisturizing, antioxidant, regenerative and thickening proprieties.

DIRECTIONS FOR USE.

Wash accurately and apply an adequate dose of product on face, neck and eye contour.

LV23 - 50ml

## Functional principles:

ALOE BARBADENSIS. Soothing, healing, anti allergic action

ALLANTOIN. Soothing, moisturizing, cicatrizant action

BISABOLOL. Soothing, decongestant, softening action

BLUEBERRY EXTRACT. Vasoprotector, astringent

CHAMOMILE EXTRACT. Anti inflammatory, anti reddening

HAMAMELIS EXTRACT. Decongestant, astringent

CENTELLA EXTRACT. Blood vessel tonic

TILIA EXTRACT. Moisturizer, emollient

SWEET ALMOND OIL. Emollient, elasticizer

SHEA BUTTER. Nourishing, restructuring action

JOJOBA OIL. Nourishing, eudermic emollient

Formulated to soothe, moisturize, nourish the skin and reactivate its natural protective barrier through the presence in formulation of precious eudermic lipids. Ideal daily treatment for every type of skin especially sensitive, easily reddened skin irritated by weather conditions or air pollution. Contains functional principles with soothing, calming, healing, vasoprotective and anti redness effects, offsetting the typical chain reaction of irritative processes.

Apply on all face and neck massaging lightly until completely absorbed.

This cream can be used along with any other cosmetic treatment.

DIRECTIONS FOR USE.

## How to use:

Apply daily morning and night massaging lightly and delicately to favour absorption.

LV24 - 50ml

05

## CREMA ANTI-ACNE ACIDO AZELAICO E VITAMINA F

Functional principles:

AZELAIC ACID. Powerful germicide for microorganisms responsible for acne formation

VITAMIN F. Sebum composition and cell membrane normalizer

WILLOW EXTRACT. Sebum normalizer, keratolytic

OATMEAL EXTRACT. Moisturizer, skin elasticizer

TILIA EXTRACT. Moisturizer, lenitive

HELICHRYSUM EXTRACT. Skin cleanser, astringent

AVOCADO OIL. Elasticizer, hydrolipidic film normalizer

BORAGE OIL. Softener, decongestant, cell regulator

UV FILTER. Anti photoaging

Light, non-greasy lotion suitable for daily treatment of impure skin and skin affected by sebum overproduction. Contains normalizing functional principles able to improve sebum quality with the time. Contains azelaic acid with high antimicrobial power to reduce aetiology that leads to acne. Constant application reduces the typical flaws of hyperseborrheic skin making it silkier and more luminous.

DIRECTIONS FOR USE.

Apply morning and night on all face after cleansing. Massage lightly until complete absorption. This product can be used along with any other cosmetic treatment.

LV25 - 50ml

06

## WHITENING ANTI-SPOTS CREAM TO KOJIC ACID

Functional principles:

ARBUTINE. Blocks tyrosinase selectively, inhibiting tyrosinase and melanin oxidation. Proven skin whitener and brightener, effective in reducing pigmentation of dark marks and active principle in preventing skin dyschromia.

KOJIC ACID. Contrasts the skin pigmentation process blocking the processes responsible for marks formation and hyperpigmentation process through the activation of tyrosinase and chelation of copper ions present in the enzyme.

GLYCYRRHETINIC ACID. Whitens and brightens the skin effectively. It inhibits melanogenesis blocking the action of tyrosinase on tyrosine.

AZELAIC ACID. Its action is based on the inhibition of tyrosinase. It has a powerful whitening and anti-mark action with sebum normalizing, smoothing and antibacterial properties.

LUMISKIN (Diacetil Boldina). Enhances skin luminosity and lessens melanin production at skin level thus diminishing skin mark intensity and quantity.

Skin dyschromia is linked to a bad pigmentation, an abnormal accumulation of melanin pigment. The synergy of -arbutine and kojic acid acts on the enzymatic cascade that leads to melanin formation and in particular on the tyrosinase enzyme.

Lotion formula is based on natural substances, with no aggressive and dangerous chemicals. Fluid and penetrating to the touch, with a particularly refined texture for easy and pleasant application.

The right balance of the functional principles complex is such that, as a whole and through various actions, it contributes to skin whitening.

DIRECTIONS FOR USE.

Apply morning and night on face, neck, décolletage and hands after cleansing. Massage lightly until completely absorbed. This product can be used along with any other cosmetic treatment. UV exposure is not advised during cream action interval. Sun radiations can cause photosensitivity phenomena. The whitening effect can be seen after thirty days, time necessary to the replacement of skin top layers.

LV26 - 50ml

07

## PURIFYING EXFOLIATING SCRUB CREAM

Functional principles:

JOJOBA OIL. Nourishing eudermic softener

VEGETABLE SHORT-CHAIN TRIGLYCERIDES. Nourisher

EXTRA VIRGIN OLIVE OIL. Softener, lenitive, antioxidant

PURE SILICA MICROGRANULES. Useful for dead cells removal

Face exfoliating cream, thanks to natural exfoliating microgranules derived from silica, allows gentle but deep cleansing. Everyday our skin is subject to many aggressions from external agents and sensitive skins need more care and a protective and delicate treatment. This treatment eliminates skin impurities preserving the natural hydro-lipidic barrier and helps removing dead cells. Brightens stressed skin subject to pollution aggression.

DIRECTIONS FOR USE.

Once or twice a week on wet face, neck and décolletage skin. Massage lightly and rinse accurately with abundant tepid water.

LV27 - 50ml

08

## NOURISHING MASK WHITE CLAY, HONEY AND GINSENG

Functional principles:

HYPERICUM EXTRACT. Epithelium regenerator, elasticizer, protective

GINSENG EXTRACT. Revitalizer, toner

BEE POLLEN EXTRACT. Nourisher

HONEY. Moisturizer, softener

WHITE CLAY. Cleanser, remineralizer, decongestant

ALLANTOIN Softener, keratoplastic

Revitalizing intensive treatment contrasting skin aging and reactivating ideal moisture level. Contains a complex of precious fats associated with regenerating and nourishing vegetable functional extracts formulated in a liquid crystal cosmetic system able to moisturize and nourish the skin long and deeply without blocking natural transpiration.

The product is a complete crash treatment. Already after the first application the skin will look more luminous and more relaxed, velvety and silky to the touch. It is suitable for "mature" skin or particularly dry and dehydrated skin due to cold or dry climate.

DIRECTIONS FOR USE.

Apply weekly on face, eye contour and décolletage massaging gently and let rest for 15 minutes before rinsing with tepid water. For a crash action apply the product generously in the evening, massage quickly and let rest all night.

LV28 - 50ml

## 09 PURIFYING MASK GREEN CLAY, PROPOLIS AND CAMPHOR

Functional principles:

GREEN CLAY. Cleanser, sebum-absorber, mineralizer

CAMPHOR ESSENTIAL OIL. Cleanser, antiseptic, refresher

EUCALYPTUS ESSENTIAL OIL. Refresher, toner

VITAMIN F. Sebum rebalancer

PROPOLIS EXTRACT. Antiseptic, retexturizer, cleanser

OATMEAL EXTRACT. Lenitive, refresher

ALLANTOIN. Keratoplastic, softener

Purifying, moisturizing and dermo-balancing mask for a purifying face treatment. Rich in green clay and sebum-absorbent activity, antiseptic and lenitive. Particularly rich in texture and easy to apply, if used regularly contrasts skin impurity formation. Ideal for cleansing of mixed, impure or greasy skin.

DIRECTIONS FOR USE.

Use weekly. Apply on skin a 2-3 mm product layer without massaging and let rest for 10-15 minutes. Rinse with abundant tepid water. After treatment the skin will look purified, moisturized and protected.

LV29 - 50ml

## 10 CALMING AND DECONGESTANT ALFA BISABOL MASK

Functional principles:

ALFA BISABOL. Decongestant, lenitive

BLUEBERRY EXTRACT. Vasoprotector, astringent

TILIA EXTRACT. Moisturizer, softener

AVOCADO OIL. Elasticizer, hydrolipidic film normalizer

WHITE CLAY. Absorbing power, cleanser, rebalancer

ALLANTOIN. Moisturizer, keratoplastic

Intensive calming and decongestant treatment based on Alfa Bisabol. Suitable for particularly irritable skin and for atopic cases. Particularly creamy and easy to apply, if regularly used can contrast skin impurity formation. Extracts contained are traditionally used to calm irritative processes thanks to their soothing, calming and anti reddening effect.

DIRECTIONS FOR USE.

Apply weekly on face and let rest for 15-20 minutes. Rinse with tepid water.

LV30 - 50ml

## bio.fito body treatment

SUPER MOISTURIZING CREAM

BODY SCRUB EXFOLIANT CREAM TO SILICA

SYNERGY 1 CELL CELLULITE TREATMENT

SYNERGY 2 DRAIN DRAINAGE TREATMENT

SYNERGY 3 ELAST ELASTIC AND TONING TREATMENT

SYNERGY 4 YPER TREATMENT HYPEREMIC

01

## SUPER MOISTURIZING CREAM

Functional principles:

CUCUMBER JUICE. Moisturizer, lenitive

ALOE VERA GEL. Moisturizer, regenerator, retexturizer

CALENDULA EXTRACT. Cell metabolism stimulator, vasoprotector

MALLOW EXTRACT. Lenitive

SWEET ALMOND OIL. Softener, elasticizer

EXTRAVIRGIN OLIVE OIL. Softener, antioxidant, lenitive

HYDROLYZED WHEAT PROTEINS. Deep moisturizer, filmogene

After bath, shower, exposure to the sun or depilation it contributes retarding hair growth. This is a deep moisturizing and soothing lotion whose complex of components favours perfect hydration and at the same time soothes damages due to depilation or sun.

DIRECTIONS FOR USE.

It can be used all year round as moisturizing cream or as after bath/shower, depilation or after sun lotion.

LC32 - 200ml

02

## BODY SCRUB EXFOLIANT CREAM TO SILICA

Functional principles:

JOJOBA OIL. Nourisher, eudermic emollient

VEGETABLE SHORT-CHAIN TRIGLYCERIDES. Nourisher

EXTRAVIRGIN OLIVE OIL. Emollient, lenitive, antioxidant

PURE SILICA MICROGRANULES. Help eliminating dead cells

Special peeling based on deeply moisturizing cream. Cleans gently but deeply thank to natural exfoliating granules derived from Silica. Massage gently on body to feel the action of granules on skin. This treatment removes impurities preserving the hydrolipidic barrier and helps eliminating dead cells. It brings new brightness to tired and pollution-weary skin.

DIRECTIONS FOR USE.

Use once or twice a week on wet skin, massage gently and rinse accurately with abundant tepid water.

LC33 - 200ml

Functional principles:

THYME ESSENTIAL OIL. Purifying and stimulating

CLOVE ESSENTIAL OIL. Purifying and antiseptic for skin with problems of circulation

NIAOULI ESSENTIAL OIL. Action stimulating and invigorating in massage for atonic skin

EUCALYPTUS ESSENTIAL OIL. Refreshing, antiseptic and stimulating for actions massage

ARNICA EXTRACT E HELICHRYSUM EXTRACT. Decongestant action, purifying and soothing

Product based on essential oils of thyme, cloves, Niaouli, Eucalyptus, soluble extracts of helichrysum, arnica and olive husk nuts. All components exert a synergistic effect on the function of cells reactivating metabolism, blood circulation in the capillaries and improving the drainage cell.

Action: indicated in the treatment of cellulite and localized adiposity.

DIRECTIONS FOR USE.

Apply the oil on the body and massage with circular movements from the bottom upwards, concentrating on areas with more adiposity.  
Apply regularly, even twice daily.

S1 - 100ml

Functional principles:

ROSEMARY ESSENTIAL OIL. Diaphoretic action, stimulates sweating, vasodilator external

LEMON ESSENTIAL OIL. Stimulant action on cellular metabolism, anti-rheumatic, skin cleansing, whitening

CAJEPUT ESSENTIAL OIL. For skin toning and stimulating action atonic

MELISSA ESSENTIAL OIL. Revitalizing and stimulating capillary action

HYPERICUM OLEOLITA. Soothing, softening and restorative for chapped skin and burns

SYNERGY DRAIN: it is not a massage oil as they are not all the synergies, but it is a supplement to associate it with massage cream or massage oil.

Action: assisting to the elimination of tissue fluids in excess.

DIRECTIONS FOR USE.

Apply the oil on the body and massage with circular movements from the bottom upwards, concentrating on areas with more adiposity.  
Apply regularly, even twice daily.

S2 - 100ml

Functional principles:

SWEET ALMOND OIL. Refreshing and elasticity

OLEOLITO HYPERICUM. Soothing, softening and restorative chapped skin and sunburn

LAVENDER ESSENTIAL OIL. Regenerating tissue, helps eliminate toxins

ESSENTIAL OIL OF YLANG YLANG. Toning, refreshing

ESSENTIAL OIL OF SALVIA. Reduces cellulite, stimulates circulation, fights water retention

ESSENTIAL OIL CAJEPUT. Stimulant and tonic for skin atonic

An innovative product against cellulite with a firming oil, is quickly absorbed. The most effective cosmetic to fight sagging skin

Thanks to an extraordinary blend of precious essential oils that work together to targeted action.

Lavender, Ylang Ylang, Sage, Cajeput. This exceptional cocktail adds the infinite pleasure of massage: with its splendid texture is absorbed immediately, leaving skin softly scented.

Skin: for all skin types, even the most dried

Actions: fighting the cellulite.

Features: massage oil, dries quickly, leaving the skin a delicate veil and a intense perfume.

DIRECTIONS FOR USE.

Apply the oil on the body and massage with circular movements from the bottom upwards, concentrating on areas with more adiposity.  
Apply regularly, even twice daily.

S3 - 100ml

Functional principles:

SWEET ORANGE ESSENTIAL OIL. soothing, stimulates the defenses of cells and promotes renewal

EUCALYPTUS ESSENTIAL OIL. action refreshing, antiseptic, stimulant products by massage

ARNICA MONTANA OLEOLITA. anti-inflammatory, analgesic, improves circulation

ACHILLEA OLEOLITA. action astringent, clarifying, antiseptic, restorative

METHYL NICOTINATE. action termoattivante favoring the the superficial circulation

Product based on essential oils of sweet orange and eucalyptus, liposoluble extracts of arnica, yarrow and husk nuts.

Action: synergy hyperemic is a product that causes hyperaemia of the skin: has a warming effect.

Occupation: is to use in specific treatments to activate the circulation and to increase the cell metabolism. Indicated for treatment of cellulite and analgesia.

DIRECTIONS FOR USE.

Apply the oil on the body and massage with circular movements from the bottom upwards, concentrating on areas with more adiposity.  
Apply regularly, even twice daily.

S4 - 100ml

## bio.fito clean & care

MICRONIZED OATMEAL DELICATE CLEANSING CREAM

CARROT, GINSENG AND CENTELLA TONER

DETERGENT AND MAKE-UP REMOVING CHAMOMILE AND CALENDULA GEL

CORNFLOWER TWO-PHASE EYE MAKE-UP REMOVER

## 01 MICRONIZED OATMEAL DELICATE CLEANSING CREAM

Functional principles:

OATMEAL EXTRACT. Protective, cell metabolism stimulator

TILIA EXTRACT. Moisturizer, lenitive

ECHINACEA EXTRACT. Rebalancer, toner, epithelium regenerator

HAMAMELIS EXTRACT. Astringent, decongestant

JOJOBA OIL. Nourishing, eudermic softener, sebum-friendly detergent

ALLANTOIN. Keratoplastic

This fluid emulsion removes residual impurities without eliminating the natural hydrolipidic film. Its mild action makes it suitable for normal, sensitive as well as greasy and impure skin.

Cleansing with emulsions offers the advantage of being less aggressive on skin. Strong detergents can worsen greasy skin conditions causing "rebound hyperseborrhoea" due to delipidification. This product contains skin-friendly oils, micronized oatmeal extract naturally rich in polysaccharides, highly dermocompatible mucilage and tonifying, elasticizing and astringent vegetable extracts.

DIRECTIONS FOR USE.

Apply morning and night with a cotton ball. Continue tonification with velveting tonic.

CC11 - 200ml

## 02 CARROT, GINSENG AND CENTELLA TONER

Functional principles:

GINSENG EXTRACT. Revitalizer and toner

SAMBUCUS EXTRACT. Lenitive, anti reddening, vasoprotector

EQUISETUM EXTRACT. Remineralizer

CENTELLA. Drainer, decongestant

This is an alcohol free tonic solution formulated to remove detergent residues and to prepare skin for further specific moisturizing, softening and anti-wrinkle treatments.

DIRECTIONS FOR USE.

Use daily along with delicate cleansing cream. Apply toner on a cotton ball and massage skin with circular movements in order to remove detergent and make-up residues.

CC12 - 200ml

### 03 DETERGENT AND MAKE-UP REMOVING CHAMOMILE AND CALENDULA GEL

Functional principles:

YARROW EXTRACT. Epithelium regeneration action

TILIA EXTRACT. Moisturizing and softening action

MARIGOLD EXTRACT. Cell metabolism stimulator, vasoprotector

CHAMOMILE EXTRACT. Anti inflammatory, anti reddening

This is a neutral pH eudermic gel formulated with hydrosoluble detergent oils that together with marigold mucilage make it suitable for the removal of any kind of impurities from face. It gives luminosity and softness to the skin. Produced with chamomile, marigold, tilia and yarrow glycolic extracts which protect the skin and reduce irritations and possible allergies.

DIRECTIONS FOR USE.

Use morning and/or night, massage on wet skin until a foam is obtained. Rinse with abundant water.

CC13 - 200ml

### 04 CORNFLOWER TWO-PHASE EYE MAKE-UP REMOVER

Functional principles:

CORNFLOWER WATER. Refreshing and decongestant

LIGHT OIL. Helps remove greasy substances

VERY DELICATE FRAGRANCE. Light fragrance

CYCLOMETHICONE. Skin softener, optimal texture

It is produced with distilled cornflower acidified with citric acid and nourishing and delicate cosmetic oils. It removes any type of make-up through a combination of light oils and cyclomethicone. An exact combination of water and gentle deep cleansing oils.

DIRECTIONS FOR USE.

Shake well to blend the two separate phases. Dampen a cotton ball and pass gently on the make-up to be removed.

CC14 - 125ml

## 01 CREMA VISO ANTI-AGE ACIDO JALURONICO E VITAMINE SPF 30

1. It is a water resistant cream; this characteristic is obtained through the use of Triaccontanyl polyvinylpyrrolidone.
2. SPF is 30
3. Anti-aging proprieties are granted by: Vitamin A palmitate, Vitamin E acetate, Hyaluronic acid, Gamma Oryzanol.
4. Moisturizing proprieties are given by: Hyaluronic acid, Glycerine, Cucumber juice, Aloe Vera gel.
5. Preservatives are: Ethlesil glicerine, Japanese Honeysuckle extract, Potassium sorbate.
6. Softening oils: Jojoba oil, Tahitian Gardenia oil, Rice oil, Shea butter.

This is an anti-aging sun protection factor (SPF) 30 cream with UVA and UVB filters, water resistant. Suitable for very delicate skin. With its naturally derived filter it grants effective protection (tropics — mountains).

Protection and total UV rays block is granted by the right quantity and good balance of its natural total block filters: Titanium dioxide and Zinc dioxide.

The cream's formulation is rich in precious vegetable oils and moisturizing and anti-aging components such as: Vitamin A, Vitamin E, Cucumber juice, Aloe vera, Gamma Oryzanol and Hyaluronic acid.

SV1 - 50ml

## 02 ELICRISUM AND SHEA OIL SUN LOTION SPF 15

Functional principles:

SHEA BUTTER. Nourishing, restorative

ELICRISIUM EXTRACT. Restorative, antioxidant, soothing

NUT HULL OIL. Sunscreen UVB, tanning

VEGETABLE SHORT-CHAIN TRIGLYCERIDES. Nourishing

WATER RESISTANT FACTOR

AVOBENZONE. Sunscreen for UVA radiations

ETHYLHEXYL METHOXYCINNAMATE. Sunscreen for UVB radiations

MICROPARTICLES OF TITANIUM DIOXIDE for UV rays total block

MICROPARTICLES OF ZINC DIOXIDE for UV rays total block

It is a sun lotion with low protection factor. Easy to apply on all body, ideal for tanned skin of dark complexion (phototype 4) and no tendency to sunburn. The presence of precious oils, vegetable extracts and moisturizing elements grants a protection against excessive skin dryness due to salt and sun radiations.

Sun protection is assured by a right combination of sunscreens capable of reducing the influence of UVB rays (causing reddening and erythema) and UVA rays (tanning).

The presence of a water-repellent filmogene makes this cream water-resistant.

SC2 - 200ml

Functional principles:

HYDRATION FACTOR

JOJOBA OIL. Nourishing

VEGETABLE SHORT-CHAIN TRIGLYCERIDES. Nourishing

WATER RESISTANT FACTOR

ALOE VERA GEL. Hydrating, soothing

CENTELLA EXTRACT. Elasticizing

AVOBENZONE. Sunscreen for UVA radiations

ETHYLHEXYL METHOXYCINNAMATE. Sunscreen for UVB radiations

MICROPARTICLES OF TITANIUM DIOXIDE for UV rays total block

MICROPARTICLES OF ZINC DIOXIDE for UV rays total block

It is a sun emulsion with medium protection factor, easy to apply on all body and ideal for tanned skin of rather dark complexion (phototype 3-4) and low tendency to sunburn. The presence of precious oils, vegetable extracts and moisturizing elements grants a protection against excessive skin dryness due to salt and sun radiations. Protection against UV rays is granted by an optimal combination of sunscreens active on UVA and UVB radiations and it is strengthened by a combination of natural filters which totally absorb radiations.

The presence of a water-repellent filmogene makes this cream water-resistant.

SC3 - 200ml

Functional principles:

HYDRATION FACTOR

JOJOBA OIL. Nourishing, softening eudermic

VEGETABLE SHORT-CHAIN TRIGLYCERIDES. Nourishing

WATER RESISTANT FACTOR

ALOE VERA GEL. Hydrating, soothing

AVOBENZONE. UVA radiations sunscreen

ETHYLHEXYL METHOXYCINNAMATE. Sunscreen for UVB radiations

MICROPARTICLES OF TITANIUM DIOXIDE for UV rays total block

MICROPARTICLES OF ZINC DIOXIDE for UV rays total block

It is a water resistant sun emulsion with high protection factor, easy to apply on the most exposed areas of the body, ideal for fair complexions of individuals who get easily sunburnt (phototype 1-2) and with a tendency to get suntanned with difficulty. This product is recommended for children. The presence of precious oils, vegetable extracts and moisturizing elements grants a protection against excessive skin dryness due to salt and sun radiations.

Protection against UV rays is granted by an optimal combination of sunscreens active on UVA and UVB radiations and it is strengthened by a combination of natural filters which totally absorb radiations.

The presence of a water-repellent filmogene makes this cream water-resistant.

SC4 - 200ml

Functional principles:

TYROSINE. Melanin natural stimulator

ALOE VERA GEL. Lenitive and refreshing

CARROT EXTRACT. Lenitive, moisturizer, pigmenter

CUCUMBER EXTRACT. Lenitive, moisturizer

NUT HULL OIL. Suntan stimulator

EUDESMIC VEGETABLE OILS. Lenitive and dermo protector

It is a pleasant and soft emulsion which boosts and exalts natural tan. It contains tyrosine amino acid, responsible for natural stimulation of melanin, and a precursor to it, along with carrot and nut hull extract that give this product strong tan stimulation power. Aloe vera gel and cucumber extract soothe and refresh skin maintaining it soft and protecting it against excessive dryness due to sun exposure and saltiness. Daily application is recommended starting from a week before the holidays to make the most of melanin stimulation power and continuing application during and after sun exposure for a long lasting tan. It is also ideal as pre-sun lamp for an intensified, golden and homogeneous effect. It is very efficacious also as a face and body moisturizer and can be used as an after sun lotion.

DIRECTIONS FOR USE:

Apply lotion on all face and body before, during and after sun or UV sun lamp exposure. Massage to favour absorption and apply evenly.  
This emulsion can be used along with any other sunscreen (to be applied after it).

SI5 - 200ml

VILIGHT BEAUTY originates from several experiences acquired in the wellbeing and beauty sector. By assessing the importance to exploit at best the technologies potential for this specific use, functional and effective cosmetics have been produced.

Today's Customer has a real and actual need of reliable results, of value-for-money products, of ethical and fair price solutions, of certainties. The message that our company conveys is a new approach to beauty, based on the highest trustworthiness of technologies and products.
